The Board received the following reports:

A. **Report on the Proposed Boundary Change for West Towson Elementary School and the Proposed Boundary Changes for Rodgers Forge and Riderwood Elementary Schools** – Ms. Barbara Walker, Central Area Assistant Superintendent, and Ms. Michele Prumo, Executive Director for Planning and Support Operations, reviewed the recommendation for the boundary change. Scenario G with the modification is recommended to the Board for approval as the new boundaries for West Towson, Rodgers Forge, and Riderwood Elementary Schools effective for school year 2010-2011.

Ms. Walker reviewed the Boundary Study Committee’s meeting dates and a provided brief summary of each meeting that was held. As in prior boundary study processes, when pertinent information becomes available, that information must be shared with the committee members. Committee meetings are flexible, and another meeting was needed so that the committee could review additional information regarding proposed scenarios in order to finalize the materials for the public forum.

Ms. Prumo reviewed the purpose of the public forum. Ms. Prumo noted that 46%, or 95 individuals out of 205 participants, completing the survey identified Scenario G as the preferred scenario. The preferences were split between three other scenarios.

Ms. Walker stated that, at the final boundary committee meeting held January 20, 2010, the committee did not reach a consensus. Seven members voted for scenario G and three members voted for Scenario A-1. Therefore, a modified Scenario G, which includes the Ruxton Ridge neighborhood, was the recommendation provided to the Superintendent. Ms. Walker stated that the attributes of Scenario G modified are as follows:

- Seventy percent (70%) of the community members who served on the boundary study committee supported this option.
- Students living directly adjacent to West Towson ES will attend the school.
- All seven neighborhoods that make up the Greater Rodgers Forge Community remain intact.
- West Towson Elementary School opens at 87% of capacity, which is the lowest capacity of the proposed boundary scenarios.
- Rodgers Forge Elementary School student population is reduced from 722 to 369 (181.3% of capacity to 93.2% of capacity).
REPORTS (cont)

- Riderwood Elementary School student population is reduced from 542 to 495 (117% of capacity to 106.9% of capacity).

Mr. Schmidt asked what the timeframe for the Hampton Elementary School addition is. Ms. Prumo responded that the proposed time frame is 2012-2013.

Ms. Murphy stated that the public hearing on the proposed boundary changes would be held on Wednesday, March 10, 2010, at Loch Raven High School beginning at 7:00 p.m.

Sick Leave Bank Unit 3- Supervisory/Technical

The purpose of the Sick Leave Bank is to provide sick leave to contributors to the bank after the member’s accumulative sick leave has been exhausted.

The definition of sick leave shall be that leave that is granted to an employee who through personal catastrophic illness, injury, or quarantine is unable to perform the duties of his or her position. Sick leave from the bank may not be granted for the period of disability when monies are paid to the employee under Workmen’s Compensation Law.

A three-member approval committee, consisting of members appointed by the Superintendent, shall have the responsibility of receiving requests, verifying the validity of requests, approving or denying requests, and communicating its decision to the member.

The Director of Personnel shall verify bank grants as being within the limits of the bank balance that the illness is of a catastrophic nature and that sick leave is exhausted. Requests meeting the above criteria will be approved and forwarded to the Office of Payroll as authorization for payment.

The bank may be used only by the individual contributor for his or her personal disability.

The bank may not be used for disabilities of other members of the contributor’s family.

The bank may not be used by the contributor to remain away from his or her position in order to assist a member of his or her family who is ill.

Only earned sick leave may be contributed to the bank; vacation and personal may not be contributed.

Contributions can be made between July 1 and September 30 of any given year. Employees returning from leave will be permitted to contribute to the bank on approval from the committee. Eligible employees who do not elect to join the Sick Leave Bank at the first opportunity afforded to them will not be permitted to join the Bank until the subsequent annual open enrollment period. New employees will not be eligible to join during their first two years of employment. An employee may join the sick leave bank only after having accumulated 30 days of sick leave.
POLICY 4271

The rate of contribution for members shall be based on the following schedule:

- 30 to 120 days of accumulated sick leave.....2 days
- 121 to 180 days of accumulated sick leave.....1 ½ days
- 181 or more days accumulated sick leave.....1 day

The initial contribution to the bank will be made at the time of joining the bank, and future contributions will be based on need as recommended by the Sick Leave Bank and agreed upon by the Superintendent.

Contributors must use all accumulated and anticipated sick leave before applying for leave from the bank. The total time a person may draw on the Sick Leave Bank is two (2) months in any fiscal year, including duty-days, holidays, and vacation days but does not include the other days the employee does not normally work.

A contributor will lose the right to utilize the benefits of the bank only by:

- Termination or suspension of employment in the Baltimore County Public Schools
- Cancellation of participation by the member on the proper form at any time
- Absence while on approved leave
- Transfer to a position of another unit within the school system

The existence of the bank and participation by an employee in the bank does not negate or eliminate the rights of the individual employees who participate in the bank to other sick leave benefits as specified in this Agreement.

All donations will remain in force and cannot be returned even upon cancellation of membership.

Members shall be permitted to use the bank for personal illness after sick leave is exhausted. The bank can be used on the sixth duty day of absence during the member’s disability. The five (5) day deductible will apply to each disability but will be waived for relapses of the same disability. The maximum number of sick days that can be granted in any one (1) fiscal year will be the remaining number of duty days a member is scheduled to work plus included holidays or vacation days they would normally accrue during this period. In no case will the granting of leave from the bank cause a member to receive more than his or her annual salary.
The number of accumulated sick leave days is available to a member at any time for any purpose will not include the number of days which the employee has contributed to the bank.

All unused sick leave days in the bank at the end of the fiscal year shall be carried over to the next fiscal year.

An individual eligible for disability retirement may not use the provision of sick leave bank to postpone that retirement.

If the provisions of the sick leave bank should be terminated, the bank balance shall be returned to the then current members of said bank proportional to the rate collected in the last assessment, excluding those individuals who have utilized said bank in the last three (3) years.

Ethics Review Panel

Statement of Issues or Questions Addressed:
Board of Education Policy 8366 defines the term limits for ethics review panel members. The current language does not clearly indicate whether individuals who are appointed to complete unexpired terms may serve one or two additional terms. The suggested revisions permit Ethics Panel Members to serve in the same manner as Board of Education members who are appointed to fill vacancies involving unexpired terms. That is, it has been clarified that persons may serve two terms, in addition to any unexpired term. The Board believes that this amendment will permit experienced Panel members to continue to serve.

Other revisions to the policy are non-substantive.

Cost Analysis and Fiscal Impact on School System:
No fiscal impact is anticipated by the revision of this policy.

Relationship To Other Board Of Education Policies:
The Ethics Code Policy series is related in content. (Policy Series 8360) However, no other policy concerns the term limits of Ethics Code Panel members.

Legal Requirements:
There is no legal requirement concerning Ethics Panel member term limits. However, the requirements for maintaining an ethics review panel are found at the following:

**Description:**

The Office of Secondary Reading English Language Arts is in the process of redesigning the literature strand of the English Language Arts Curriculum Grades 6 through 12. The main objectives for this redesign are infusing the classics, increasing rigor, incorporating literary history and literary movements, and creating a balanced curriculum that includes diverse voices. In addition, the revised curriculum will include multiple suggestions for differentiating content, process, and product; a clear alignment between objectives, lessons, resources, and assessments; and the integration of technology.

The purchase of new anthologies for Grade 6 through 8 will directly address a consistent text to be used in all middle school language arts classrooms throughout BCPS. The *Prentice Hall Literature: Language and Literacy* anthology was chosen because it is aligned with the Maryland Voluntary State Curriculum for English Language Arts. The anthology is arranged into six units which focus on specific genres and address an essential question to guide student reading. At the end of each unit, students are provided an opportunity to apply what they have read and learned to the essential question for the unit. In addition, texts which address the same skills are included throughout the anthology so that teachers can differentiate for students at different reading levels within and among classes. Other aspects of the *Prentice Hall Literature: Language and Literacy* anthology include an online feature which allows students to listen to a selection; view videos related to the selection, its author, and the unit’s essential question; review vocabulary from the texts; complete interactive graphic organizers; use interactive journals; and practice test-taking.

**Description:**

This contract consists of novels for Grades 4 and 5 in each elementary school. Currently, there are no complete long works of literature included in the intermediate elementary language arts curriculum.

These supplementary texts were selected using the process outlined in Policy and Rule 6002, Selection of Instructional Materials. Longer selections allow students to apply skills, strategies, and concepts learned in class in a rigorous, authentic, and engaging way. In addition, the use of longer texts in the intermediate elementary grades will allow students to build the stamina in independent reading required for academic success at the secondary level. Long works of literature also provide students with opportunities for rigorous, in-depth study of literature concepts that are not easily addressed in short works of literature. These texts will provide engaging, grade-appropriate long works that will enhance elementary language arts instruction and assist students’ transition to the academic requirements of middle school.

**Description:**  
This contract consists of the purchase of The Little Brown Handbook which provides a consistent and comprehensive resource to all teachers in the Baltimore County Public Schools in order to provide students with a solid foundation in controlling language. Many elementary and secondary language arts teachers do not enter the teaching profession with the knowledge to teach language, grammar, usage, and mechanics with fidelity. The majority of teacher preparation programs for the elementary and secondary levels do not require undergraduate courses in linguistics or grammar in order to achieve certification. However, these teachers are charged to instruct students in language, grammar, usage, and mechanics.  

The Little Brown Handbook was purchased as a consistent and comprehensive reference for teachers in order to provide a knowledge base for instruction in grammar, usage, and mechanics. The reference handbook was chosen in accordance with Board of Education Policy and Superintendent’s Rule 6002. Multiple reference books were examined from 2008 through 2009, including Warriner’s Handbook, published by Holt Publisher and Grammar and Composition Handbook, published by Glencoe. The Little Brown Handbook was the best match to the language, grammar, usage, and mechanics skills and concepts of the linguistics strand of the BCPS English Language Arts curriculum.

FROM: Dr. Joe A. Hairston, Superintendent
SUBJECT: LEGISLATION UPDATE
ORIGINATOR: Edward J. Novak, Esq., Manager, Government and External Relations

RECOMMENDATION

* * * *

That the Board of Education consider taking positions on Key School Legislation.
Background Information

The Maryland General Assembly began its annual Legislative Session on January 13, 2010. This year’s Session will adjourn on April 12, 2010. As of February 28, 2010, there have been 1,067 Bills introduced in the Senate and 1,484 Bills introduced in the House of Delegates. Additionally, five Senate Joint resolutions and thirteen House Joint Resolutions have been introduced. The total number of legislative introductions so far in the 2010 General Assembly Session is 2,569. The regular filing deadline for introduction of Bills had passed.

Discussion

The following bills are presented for the Board of Education’s consideration. The first section contains bills on which the Board has taken a formal position. The second section contains bills for your information. A Board position is not being requested at this time.

<td><strong>Education – Incidents of Bullying, Harassment, or Intimidation – Reports by Principals – Local Law Enforcement Agency.</strong>&lt;br&gt;Introduced by Delegate McConkey&lt;br&gt;&lt;br&gt;Bill Status:&lt;br&gt;House – Hearing 02/17/10 at 1:00 p.m.&lt;br&gt;&lt;br&gt;Authorizing public school principals to report incidents of bullying, harassment, or intimidation against students attending the school to the chief of the local law enforcement agency; requiring principals to use a specified form; and defining terms.</td>

</table>

This Bill would authorize Principals to report an incident of bullying, harassment, or intimidation to the County Police using the standard MSDE reporting form. The Bill would not require any specific response from the County Police. This Bill is not needed. In July 2009, the Board approved Policy 5580, which is based upon the model bullying policy adopted by MSDE. BCPS Policy 5580 (and the related Superintendent’s Rule) provides Principals with guidelines to properly address bullying incidents, to use related support services and to involve law enforcement, if deemed appropriate. The Bill also raises potential concern regarding the potential disclosure of confidential information included on the standard reporting form. A Bill hearing was scheduled for February 17, 2010 in the House Ways and Means Committee.

While the Bill only creates a Task Force, it is likely that recommendations would include imposition of curriculum-related requirements that could affect BCPS’ instructional activities. In addition, the State’s budgetary difficulties will likely be significant in FY 2012 when the Task Force report/recommendations would be considered by the General Assembly. Based on the current scheme, FY 2012 will be the first budget year in which federal stimulus monies (from the American Recovery and Reinvestment Act), which will make the fiscal climate extremely challenging. This could create a situation where an unfunded mandate involving UDL could be imposed. BCPS FY 2010 Legislative Platform includes opposition to unfunded mandates and/or mandated curriculum. At its January 25, 2010 Legislative Committee Meeting, MABE voted 8-5 to take “no position” on the bill. At a February 3, 2010 hearing in the House Ways & Means Committee, favorable testimony regarding the Bill was presented by MSDE, the State PTA and members of the special education community.

This Bill would create a new five member Public School Labor Relations Board. The Bill will substantially expand the number of topics required to be negotiated and will require mediation when an agreement cannot be reached after negotiations. In cases where mediation does not resolve the negotiations dispute, the Board would be required to conduct a hearing and would issue a binding decision based on accepting the last best offer of the union, the school system, or the mediator’s imposed settlement. In situations where a County could not provide additional funding required to implement a decision, the school system would be required to renegotiate with the union. This process would likely lead to prolonged negotiations and will require the school system to reprogram funds from other.

Bill Status:
- Senate - First Reading 02/15/10
- House – Hearing 03/10/10 at 1:00 p.m.

Altering provisions of law relating to the designation of the exclusive representative for specified public school employees in Baltimore County; repealing provisions of law that authorized Baltimore County to designate as a separate bargaining unit only specified registered nurses in specified schools in the county; prohibiting more than two bargaining units in Baltimore County and requiring each unit to consist of specified employees; etc.

budgetary areas (with the approval of the County). It should be noted that a large majority of the school system’s budget is used to pay for employee salaries and benefits, leaving a relatively small amount of monies that could even be considered for reallocation.

**Oppose**

This Bill would authorize the Board to negotiate reasonable service fees for non-certificated employees who are not members of a recognized collective bargaining organization for representation in negotiations and employee grievances. This Bill would require the Board to negotiate a reasonable service fee to be charged to both certificated and non-certificated employees (in any unit of 25 or more employees) who are nonmembers of the recognized collective bargaining organization for negotiations, contract administration, grievance matters, and all other activities. Current collective bargaining agreements that the Board has with TABCO, AFSCME, BACE, and CASE contain language that addresses the issue of “agency fee” or service fee as discussed in this Bill.

**No Position**

This Bill would eliminate the authorization for designation of a collective bargaining unit of registered nurses in elementary and special schools. The Bill would allow for recognition of not more than two units in Baltimore County, which would be consistent with the law regarding other local school systems. The Bill provides that one of the bargaining units shall consist of employees whose positions require an administrative and supervisory certificate as well as non-certificated supervisory employees. The second bargaining unit shall consist of all other certificated professional employees.

consent. Elected Board members would serve a term of four years; the initial terms of the elected or appointed members would not be staggered. Board members will elect a Chair and Vice Chair from among members each year. Unless approved by Board majority, the student member could not attend hearings involving special education placement and suspension/termination actions involving certificated employees or collective bargaining matters; the student member (generally) may not vote on suspension/termination actions involving certificated employees, collective bargaining matters, budgets, school closings and openings, and boundaries. Board members would be entitled to compensation as provided in the Baltimore County Budget and travel/expense reimbursements. State Board would have the authority to remove an elected or appointed member for cause with notice and a hearing. Bill would be effective June 1, 2010.

Recommended Position – Oppose

Creating a hybrid Board of Education of Baltimore County that would consist of 15 members, eight appointed members (one from each councilmanic district and one student member from the county at large) and seven elected members. The current Board would continue to operate until December 6, 2010 (the first Monday in December following the 2010 General Election). Elected members must be residents of their respective councilmanic districts and must maintain residency for the duration of their term. Seven elected members would be elected by affirmative vote in a nonpartisan general election (no primary election is allowed). Elected members would serve a term of four years; the initial terms of the elected or appointed members would not be staggered; elected members would serve until a successor is elected; appointed members would continue to serve five year terms (terms still starting on July 1st) except for the retention of the one year
term for the student member. Requires the County Executive to appoint a member with the consent of the County Council, if a vacancy exists because of the lack of an elected candidate(s). Board members would elect a Chair and Vice Chair from among members each year. State Board would have the authority to remove an elected or appointed member for cause with notice and a hearing. Board members would be entitled to compensation as provided in the Baltimore County Budget and travel/expense reimbursements. Bill would be effective October 1, 2010.

These Bills are not needed. The current appointed Board has effectively served public education in Baltimore County. A larger, hybrid (elected and appointed) school board (SB 982) or an elected board only (HB 1072) would impair the Board’s ability to address educational matters in a long-term, strategic manner. A hybrid board (SB 982) or elected board only (HB 1072) would be subject to political concerns and narrow special interest pressures that would adversely affect the formulation of sound educational policy. The election and appointment (SB 982) of the Board based upon councilmatic districts could lead to divisiveness involving more localized interests rather than effective decisions made on a countywide school system decisions. Additionally, there would be increased costs resulting from either Bill because the Board would be larger (SB 982) and members would be entitled to compensation under both Bills.

Recommended Position - Support with Amendments

This Bill would require juvenile courts to notify a school system if a child is determined to be delinquent or a child in need of assistance. The Bill prohibits a student who is convicted or adjudged delinquent for rape or a sexual offense or arrested for certain offenses from attending the same school or riding the same school bus as the victim if necessary to protect the physical or psychological well-being of the victim. It would increase information sharing among courts, law enforcement agencies, and schools regarding student juvenile delinquency, criminal activity, and/or suspected gang activity. Each public middle school and high school would be required to designate at least one school security officer. By January 1, 2011, the State Board, after consultation with and input from the Department of Juvenile Services, the Department of State Police, and local school systems, shall develop a model policy to address gangs and gang-like activities in schools. Local boards would be required to establish a policy to address gangs and gang-like activity in schools based on the State’s model policy. Local school systems would be required to develop specific educational programs addressing gangs and gang-like activity in schools. Each county superintendent would be required to conduct regular school security meetings for each middle and high school to enhance the coordination of gang prevention and intervention efforts. The Bill requires that each county superintendent enter into a memorandum of understanding with the County State’s Attorney’s Office to foster coordination of gang prevention, intervention, and suppression efforts. Beginning in 2011, MSDE would submit an annual report to the General Assembly. While the sponsors of the Bill are understandably concerned about gang-related activities in schools, this Bill is an unfunded mandate. **Education - Public Schools - Virtual Schools**

**Introduced by Delegates** Boteler, Aumann, Bartlett, Barve, Elmore, George, Kach, Murphy, Myers, Schuler, Shank, Shewell, Sossi, Stocksdale, and Stukes

**Bill Status:** Hearing 03/24/10 at 1:00 p.m.

Authorizing a county board of education, subject to the approval of the State Department of Education, to establish a virtual school in the State; establishing that a virtual school is a public school subject to applicable laws and regulations; requiring a virtual school to provide specified curricular programs to the students of the virtual school; requiring a virtual school to provide specified materials and access to technology to the parent or guardian of a student enrolled in the virtual school; etc.

**Recommended Position - Oppose**

This Bill authorizes a local board to create a virtual school subject to the approval of MSDE. A virtual school would be: an independent public school using the internet in a virtual or remote setting to deliver most of the curriculum (of same duration and sequence) interactively, taught by certificated teachers with regular student assessment, open to any student, the school would be evaluated annually to measure increases in student achievement and the school’s academic, fiscal, and operational performance. No funding source is identified in the Bill should the Board create a school(s). BCPS has been recognized as a leader in application of cutting-edge technology to our schools instruction program, including the highly regarded virtual program at Chesapeake HS.

**Vehicle Laws - Overtaking and Passing School Vehicles - School Bus Monitoring Cameras**

**Introduced by Delegates** Stull, G. Clagett, Elliott, Hecht, and Jenkins

**Bill Status:** Hearing 02/24/10 at 1:00 p.m.

Altering the penalty provisions for a county governing body that fails to meet the maintenance of effort requirement for primary and secondary education.

**No Position**

This Bill proposes to incorporate existing regulatory criteria and recommendations of the Joint Legislative Workgroup on Study State, County, and Municipal Fiscal Relationships into the statute governing the maintenance of effort (MOE) waiver process. It would change the deadline for a county to file an MOE waiver request, require the State Board to hold a hearing regarding a request and places seven factors (loss of a major employer or industry or a broad economic downturn affecting more than one county, tax bases, rate of inflation relative to student population, MOE requirement relative to a county’s statutory ability to raise revenues, history of whether the county has exceeded MOE, whether there is an agreement between the county and the local board as to whether a waiver should be granted and significant reductions in state aid to a county) in the law that MSBE must consider in making a waiver determination. The Bill would not change the current process that requires pursuit of individual county MOE waiver request. Baltimore County Government is working with the Maryland Association of Counties to analyze the Bill and any potential amendments to formulate a position on this bill.

**Support**

This Bill would change the current penalty process by shifting a MOE penalty from being imposed on the school system (as a reduction in state education aid) to the county government. The county government could then have other allocated state aid withheld in the amount of the MOE penalty. While a MOE had not been a concern in Baltimore County because of the continued support of County Government to provide school funding above required MOE levels, the Board supports efforts related to

This Bill would require local school systems to pay retirement-related contributions relating to new teachers hired after July 1, 2010, as well as increases in salaries for teachers. Consistent with the Board’s approved Legislative Platform. STUDENTS: Enrollment and Attendance

Married and/or Pregnant Students

1. Married Students

A student, male or female, who marries and wishes to continue in school may do so. It is expected that these students display the same standard of behavior and achievement expected of all students. The fact of marriage does not change a student’s status in respect to his or her school situation.

In order that the student’s record can carry the student’s new legal name, it is desirable that a student informs the school administrator of a change in marital status.

2 Pregnant Students and Unmarried Mothers

Unmarried mothers and pregnant girls of school age are permitted to enroll in school. Students under the age of sixteen are required to be enrolled in an appropriate educational program.

The team conference technique shall be used when appropriate in making the final recommendations regarding the educational program of these students.
