Discounted Price List
2/16/09 - 8/15/09

Who Should I Contact?

For information on and/or assistance with **pricing, ordering, and product availability**:

To request print or electronic copies of price booklets or to be added to our database to automatically receive a PDF version of our price list – contact the Communications Coordinator by sending an e-mail to communications@matcoop.org or calling 410-381-COOP.

For quantity pricing on products where QDA (Quantity Discount Available) is indicated, or for “Contact for Quote” product lines; to add to existing licenses; to have us pursue a discount on product lines not listed; to have large bids conducted for your school system; or for billing questions – contact the Purchasing Director, Amanda Cheong, at 410-290-1327 (phone), 410-290-1012 (fax), or email her at purchasing@matcoop.org

For information about **membership or trainings**; to suggest products to include in future bids; to discuss or request future training events; or to volunteer to be a “cooperative” instructor – contact Susan Garber, Executive Director, at 410-381-COOP or email her at info@matcoop.org.

What About Training?

The Maryland A.T. Co-op regularly offers professional development activities as well as product comparison sessions. Both parents and professionals receive a substantial discount over comparable presentations. Visit www.matcoop.org regularly for the latest sessions and register early. You may now complete your registration online using PayPal; or, reserve your space, and then mail your check or purchase order. To receive email notifications of upcoming training events, make your request to communications@matcoop.org. The Co-op has a portable computer training lab and invites inquiries about scheduling trainings at your facility; contact Susan 410-381-2667. You may also express your interest in forming or joining a Users Group.

Disclaimer and Policy Statement

The Maryland Assistive Technology Cooperative works hard to bring you discounted pricing on your assistive technology needs. While every attempt is made to assure the accuracy of this document, we are not responsible for typographical errors.

When a single percentage off “an entire product line” is offered, it applies to products manufactured and shipped by the date this bid was conducted (January 2009). We cannot predict pricing or discount levels on products released after this date. If unsure about a new product, please contact us to verify pricing.

Please note that we will NOT hold a collaborating vendor to a stated discount if they inform us of a manufacturer’s price increase. No one benefits from penalizing a collaborating vendor!

Due to matters beyond our control, prices may change without notice.

TAKE TIME TO READ THIS PAGE!

HOW THIS DISCOUNTED PRICE LIST IS ORGANIZED

ALPHABETICALLY BY MANUFACTURER within sections

- General: AAC Devices, Educational Software, Adapted Peripherals, Aids for Daily Living, Seating/ Positioning, Therapeutic and Recreational Equipment.
- Products for individuals with Vision Impairments

*NOTE: A company **producing** a catalog does not necessarily **manufacture** all the products in that catalog. Read the product description to determine the **actual** manufacturer.*

Prices listed are for small quantities only -- less than five units for General A.T. Devices, Equipment and Software and single units for Vision products. The letters **QDA** to the right of a price indicate that **quantity discounts are available**. Price breaks typically occur at 5-24 and 25+ levels for general products, and at 2-4 and 5+ levels for vision products.

For greater savings on larger quantities, fax 410-290-1012 or 410-381-2444 or email your request for quotes to purchasing@matcoop.org. **E-mailing an Excel spreadsheet for long quote lists will facilitate a rapid response.**

HOW TO ORDER THROUGH THE MARYLAND ASSISTIVE TECHNOLOGY COOPERATIVE

- ✓ Send your check or Purchase Order (P.O.) to: AT: LAST, Inc.
PO Box 428
Savage, MD 20763
P.O.'s can also be faxed to 410-290-1012 or emailed to purchasing@matcoop.org.
- ✓ Group products by manufacturer on your P.O. or shopping list. Calculate discounts and shipping/handling for each. **NOTE** In most cases S/H is 6% with a \$10 minimum. Exceptions are noted in **BOLD** type. Heavy products may require S/H rates as indicated in the manufacturer's catalog. **Please note that VISION products have specific S/H rates stated for each product.**
- ✓ Indicate catalog product number and name. *Caution: Many products have similar names.*
- ✓ Indicate Mac or Win and cable type where necessary.
- ✓ **Indicate a contact person on your P.O. and provide an email address and phone number. Include a 'Ship to:' address.**
- ✓ As soon as your order arrives, check the contents and turn the packing slip in to your finance department -- so that the Maryland A.T. Co-op can be paid.

TRAINING TO GO!

In addition to the many informative sessions offered for professionals and parents at our Learning Center in Columbia, AT:LAST staff development activities can be delivered right "to your door." To request our Training To Go catalog, email Laura at communications@matcoop.org. Half- and full-day sessions, both interactive lecture/demonstrations and hands-on labs, are available. You can even rent our PC laptops with the software preloaded for your session!

We can also develop professional development sessions and series to help you maximize your technology investment. Call Susan at (410) 381-2667 to discuss your specific needs and pricing.

Do you have usable assistive technology or other disability-related equipment gathering dust or sitting in closets??? Your no-longer-needed equipment could make a world of difference for another person. The Maryland Equipment Link is your tool for online exchange of A.T. equipment. This "classified ads" feature connects people with available equipment. You can advertise items for sale or giveaway and locate items you need by linking from the resource section of our website, <http://www.matcoop.org> or going directly to <http://www.equipmentlink.org>. The Equipment Link Program is designed to facilitate transactions between individuals; it is not for the sale or procurement of equipment by vendors or distributors. Agencies may use the site to donate equipment or offer free equipment loans.
