

Troll "Barrier" Game

This is a game for two players. You will need a two sided display stand, troll face boards and pieces for this game.

Directions:

Player 1 will construct a troll face behind the "barrier" without other player seeing.

Player 2 will have to construct the same troll face by asking questions to player 1.

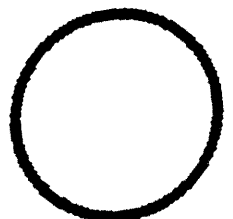

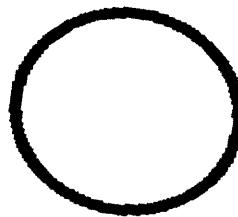

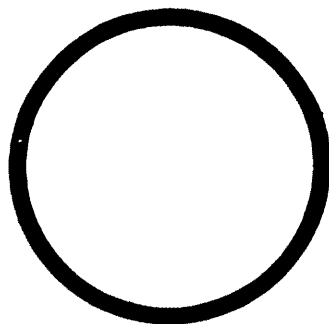

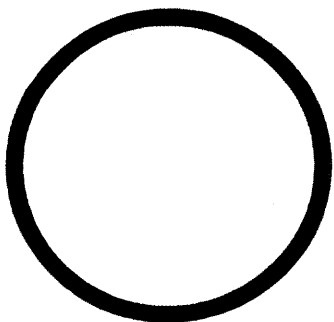

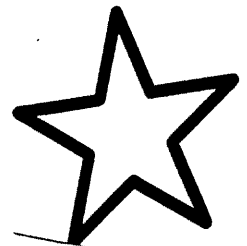

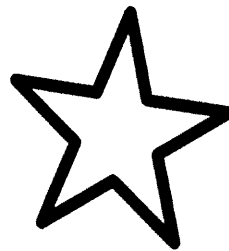

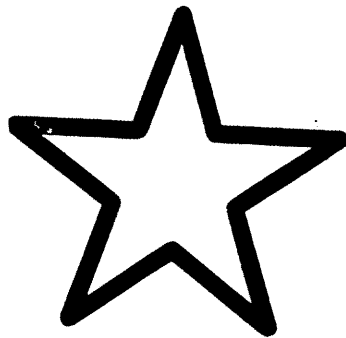

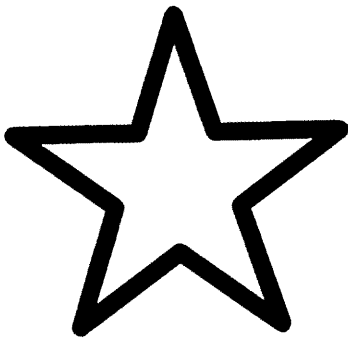

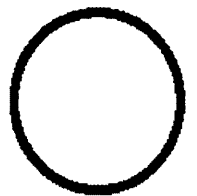

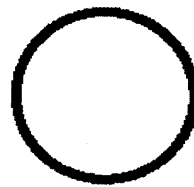

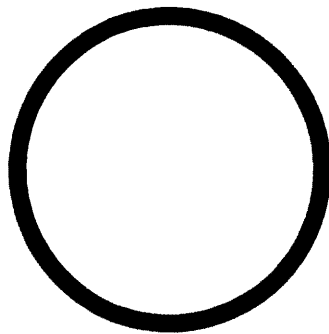

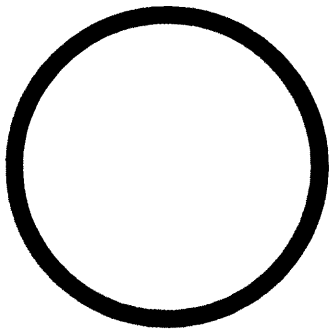

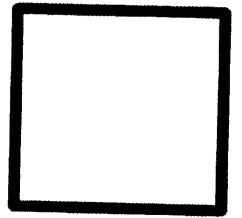

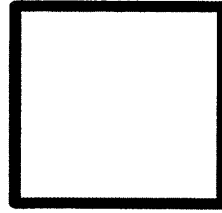

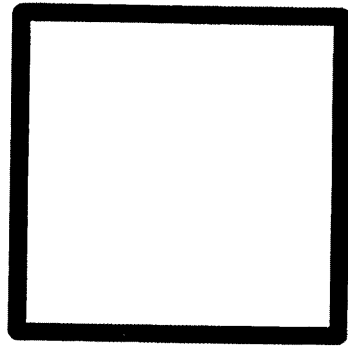

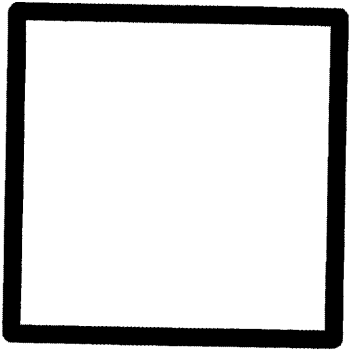

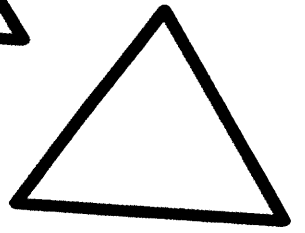

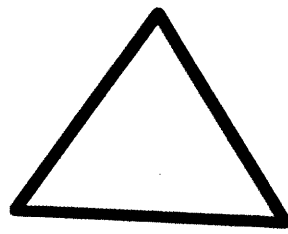

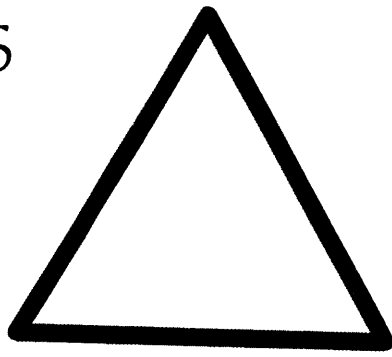

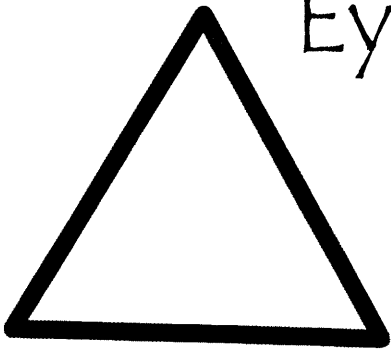

(e.g. Does he have big eyes, green eyes, long ears, etc.)

To make the game:

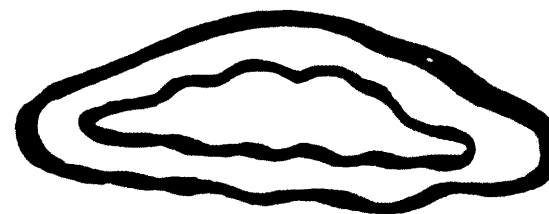

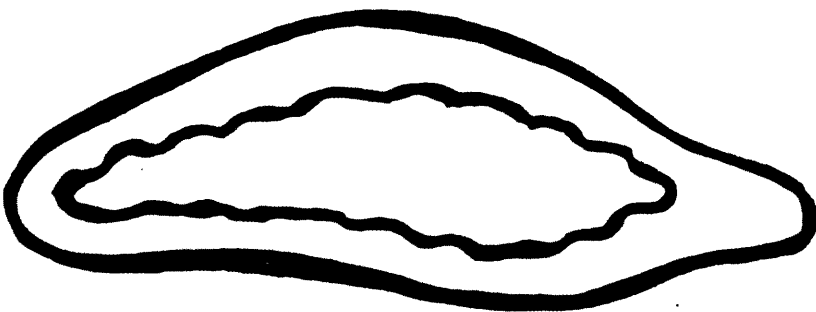

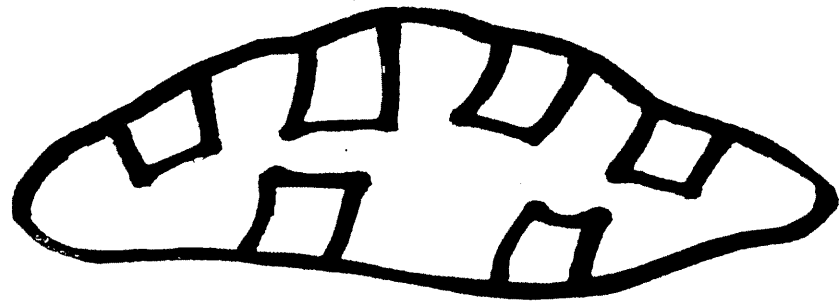

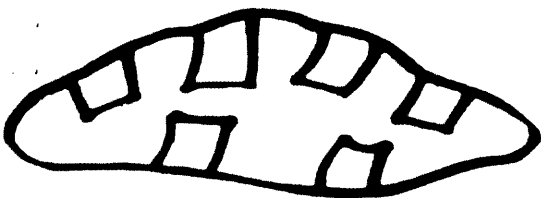

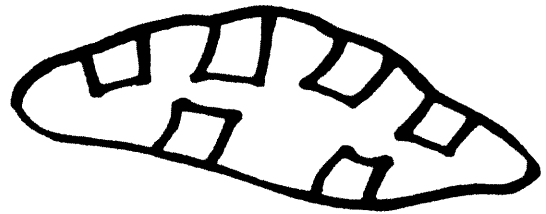

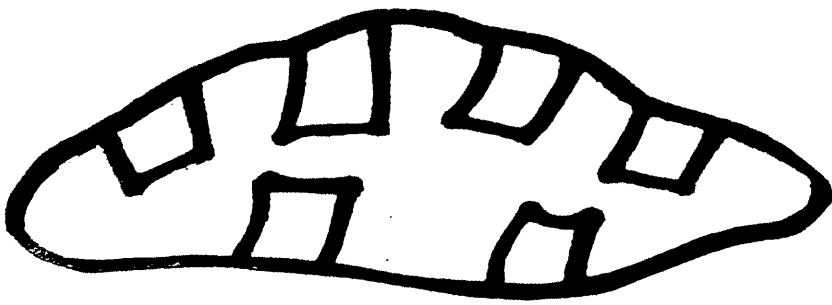

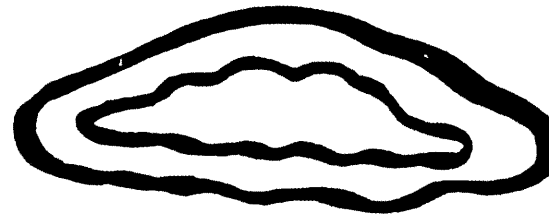

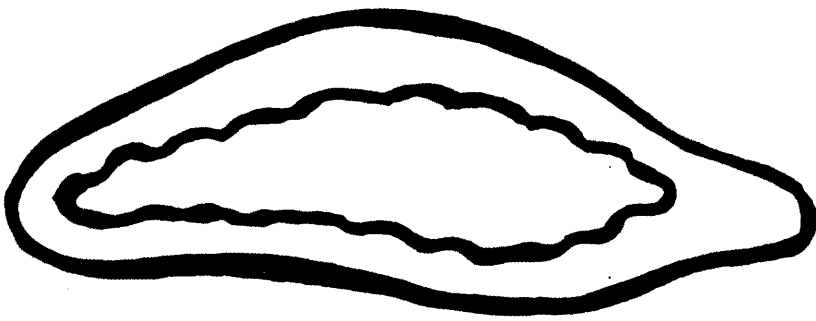

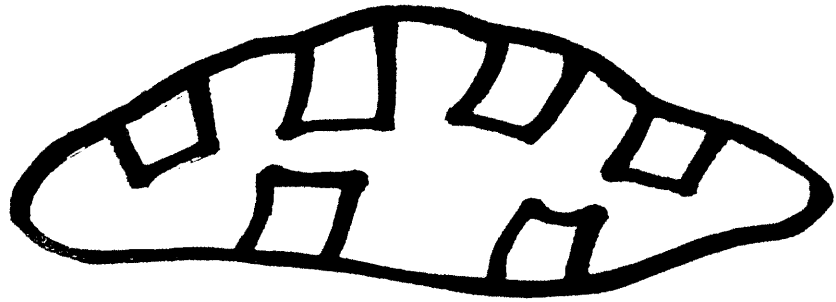

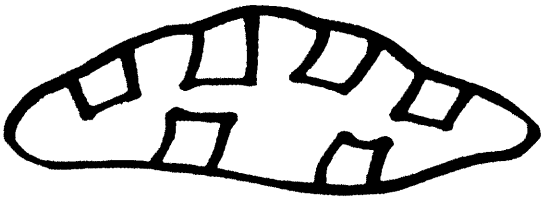

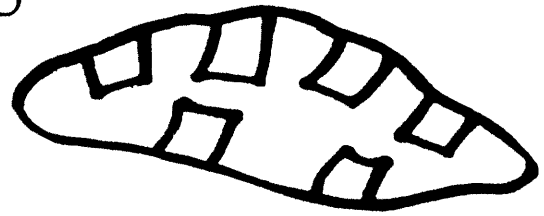

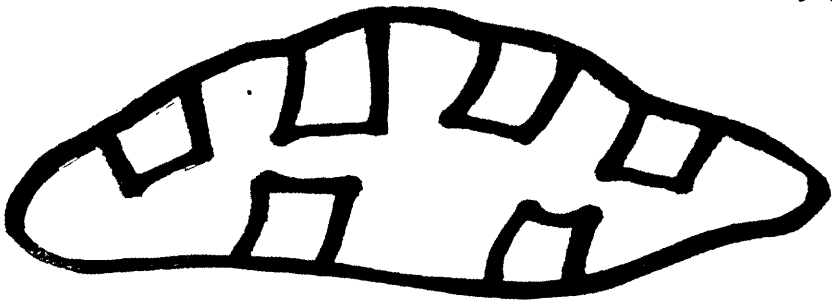

Color all parts so they are distinctly different in some way. Cut and laminate. Place a small piece of hook Velcro on the back of each piece.

Have fun!
