## Billy Goat Instruments

As children act out the story of the Three Billy Goats Gruff, they can use the instruments to make the special sounds of each Billy Goat "trip trapping" over the Bridge.

### Billy Goat 1 – Bells

String 3 bells on a pipe cleaner and twist together at the ends. Shake as the smallest billy goat lightly "trip-traps" over the bridge.

### Billy Goat 2 – Rhythm Sticks

Sand the ends of 2 pieces of PVC pipe so that edges are smooth. Tap together as the medium-sized Billy Goat "trip-traps" over the bridge.

### Billy Goat 3 – Drum

Cover a large container (like a coffee or oatmeal container) with paper. Glue billy goat hoof prints all over the container. Make a loud drumming sound as the biggest Billy Goat goes over the bridge.
