

Kurzweil 3000
Reading

Choosing Reading Units

To select a reading unit:

Click the **Reading Unit** box (the third box in the reading toolbar) and select the unit you want.

by

or

Open the **Read** menu, choose **Read Unit**, and then select the unit you want. You can choose **Word, Phrase, Line, Sentence, Paragraph, Heading, or Highlight**.

As Kurzweil 3000 reads, it highlights the current unit. You can pause after each unit, or read continuously.

Reading Mode

The Reading Mode specifies how much text Kurzweil 3000 reads before pausing

To select a different Reading Voice:

Click the **Reading Mode** box (the second box on the **Reading** toolbar) and select the unit you want.

or

Open the **Read** menu, choose **Read Mode**, and then select the mode you want. You can choose **Continuous, Self-Paced or Word by word**.
