

**MSOC LEA Member Profile**  
**Part II: Synopsis of MSOC Participation**

**Background:**

- Cecil County joined the MSOC Consortium during its first year hoping to procure seats in on-line courses for advanced as well as alternative education students. We also were ready (we thought) to begin to develop our own courses and develop a core group of on-line instructors.

**Benefits and Impact:**

- It has been very helpful to share the experiences of some of the more developed MSOC members and to carry back ideas to our local instructional leadership. Unfortunately, due to a county-wide instructional emphasis on improving reading and math curriculum, we have not been able to reach our potential in the area of on-line instruction.

**Implementation Issues:**

- We have targeted our Instructional Coordinators and building-level administrators in the hopes of implementing some portion of our project next school year.

**Lessons Learned:**

- You need buy in from every level before a program like this can get off the ground.

**Next Steps:**

- We are attempting to build interest and capacity
