

## **MSOC LEA Member Profile**

### **Part II: Synopsis of MSOC Participation**

#### **Background:**

- MSOC member since 2002
- Involvement in online learning through MSOC participation “is just getting off the ground,”

#### **Benefits and Impact:**

- Not been much impact yet

#### **Implementation Issues:**

- With so many other ongoing initiatives, it is very difficult to get another one going with proper management
- Teacher negotiation endeavor to modify the current four-period system to three periods, and initiative to create a new 9<sup>th</sup> grade academy = issues with having teacher available to be a mentor

#### **Lessons Learned:**

- Being a very small county, it is very difficult to write policies and procedures from scratch
- Need to take small steps under current circumstances

#### **Next Steps:**

- Will try to get online learning into plans for next year, particularly for AP Prep
- Plans to offer SAT Prep in summer or when it is available
- Considering offering self-paced web-based courses for alternative program
