Culinary Arts and Restaurant Management

The Culinary Arts and Restaurant Management program provides students with a challenging and diverse curriculum in one of the world's fastest growing fields. Students explore job opportunities and career pathways included in the food service industry by utilizing the Pro Start program developed by the National Restaurant Association Education Foundation. They receive instruction in basic food and bakeshop production, nutrition, and management training. Computer technology is integrated through purchasing, food cost analysis, and inventory control. Service skills, human relations, and menu development are included in the restaurant management curriculum. Students completing the sanitation course successfully will qualify to take the Safe-Serve examination for national certification. Additional practical experience is gained through various banquet and buffet production, as well as, community involvement. Post-secondary advancement is available with culinary colleges and universities, apprenticeship and community college pathways.

NOTE: Students who qualify for Career & Technology Education magnet programs offered in schools in their geographic area are given priority in placement over students who reside in other areas of the county that offer similar programs.

Students who qualify for Career & Technology Education magnet programs not offered in schools in their geographic area are given the same consideration as other applicants.

-available at Eastern Technical High School(ETHS), G. W. Carver Center for Arts & Technology(CCAT), Sollers Point Technical High School(SPTHs), and Western School of Technology and Environmental Science(WSTES)
