

High School Programs

Diesel Truck and Power Systems

This program prepares students to repair diesel-powered heavy duty equipment, automobiles, light trucks, and boats. Students will learn to diagnose malfunctions and repair engines and brakes, as well as, hydraulic, electrical, electronic, steering, and power transmission systems. Students will be expected to sit for each ASE certification exam at each level of the program. Students may earn certifications in Diesel Engines, Suspension and Steering, Brakes, Electrical/Electronic Systems, and Preventive Maintenance Diesel Engines. *(Students at Sollers Point may pursue a pathway in Marine Trades beginning in Grade 11.)*

-available at Sollers Point Technical High School (SPTHS)
