

Middle School Programs

Arts Exploration

Students may select a pathway in either the performing or visual arts.

Performing Arts provide students a variety of opportunities including steel pan percussion and theatre (incorporating drama, movement, and song). Students are prepared for individual and ensemble performances and are required to perform for a variety of audiences.

Visual Arts students develop skills in the areas of drawing, painting, and sculpting from direct observation and apply those skills through marketable art products (computer graphics, fashion, jewelry and product design). Students may earn high school credit by successfully passing the Visual Arts exam and a portfolio review.
