

Praxis I Computerized Tests

The Praxis I tests of Reading, Writing and Math are required for initial certification of teachers in the State of Maryland. There are two methods of taking these tests. One, Educational Testing Service (ETS) offers the tests via paper and pencil methods 5 times a year throughout the State of Maryland. These tests are mostly administered at local colleges and universities around the state at specific times designated through the Praxis Registration Packet available at the Office of Certification. Secondly, the State of Maryland and ETS has authorized a computerized method of taking the tests. These computerize tests are offered through a company named PROMETRIC. Information regarding PROMETRIC is listed below:
