

## **SALARY CREDIT FOR INTERNSHIPS**

### Student Teachers or Observation Students

#### Board of Education of Baltimore County (BEBCO) Credits

For those teachers who hold a valid Standard Professional I Certificate (SPC-I) or a Standard Professional II Certificate (SPC-II), **Board of Education of Baltimore County (BEBCO) credits for internship experiences (student teacher, intern, or observation/participation student) will count toward salary advancement** effective with the fall 1999 semester.

Due to Maryland State Department of Education (MSDE) regulations, these credits **WILL NOT SATISFY** the Advanced Professional Certificate (APC) requirements, as has always been the case. This policy is effective with the fall 1999 semester and will not be retroactive.

Therefore, the requirements for the APC salary are:

- a conferred Master's degree or
- 36 post-baccalaureate credits, 21 of them at the graduate level and **a maximum of six (6) of the remaining 15 may be internship (student teacher supervision or observation student) experiences**

The requirements for the Advanced Professional Certificate are:

- a conferred Master's degree or
- 36 post-baccalaureate credits, 21 of them at the graduate level
- three years of satisfactory teaching experience.

***Policies are subject to change without notice.***
