

BALTIMORE COUNTY PUBLIC SCHOOLS
Definitions: School, Center, and Program
2011-2012

Baltimore County Public Schools uses the following three criteria to define *school*, for the purpose of AYP reporting:

- Long-term official student enrollment
- Testing information is reported
- Adequate Yearly Progress (AYP) is reported

Any organizational structure (see definition below) that does not meet all three criteria is considered either a center or a program. The following chart provides summary information of the types of organizational structures, the extent to which they meet the criteria of a *school*, and the current number of each.

Organizational Structures: Criteria Met and Numbers

<i>Organizational Structure</i>	<i>Long-term Official Student Enrollment</i>	<i>Testing Information is Reported</i>	<i>AYP is Reported</i>	<i>Total Number 2011-12</i>
School	Long-term	Yes	Yes	161
Center	No	No	No	10
Program	No	No	No	2

The following definitions are provided to ensure clarity when referring to schools, centers, programs, facilities, and offices:

School – An organizational structure that is used by staff and students where students are officially enrolled for educational purposes, testing information is reported, and the Adequate Yearly Progress (AYP) is reported. Total number of schools for school year **2011 - 2012 = 161**.

Center – An organizational structure that is used by staff and students for educational purposes where students are officially enrolled on a short-term basis, testing information is not reported at a center, but returned to schools, and no Adequate Yearly Progress (AYP) is reported. Total number of centers for school year **2011 - 2012 = 10**.

Program – An organizational structure that is used by staff and students for educational purposes where no students are officially enrolled (students remain enrolled at a school or center), testing information is not reported at the program, but returned to schools, and no Adequate Yearly Progress (AYP) is reported. Total number of programs for school year **2011 - 2012 = 2**.

Facility – A physical structure or building (owned or rented) that may be used for staff (offices) and/or students (school, center, or program).

Office – A facility that is used by staff as a work environment to meet the needs of the school system.

Organizational Structure – Delivers (or provides for the delivery of) the BCPS curriculum to meet the instructional needs of students, may or may not be a facility.
