

# BrainPop and BrainPop Jr. & the Starlab

**BrainPop and BrainPop Jr. are animated websites appropriate for elementary aged children. They contain movies, quizzes, experiments, timelines, and activity pages in many subject areas including astronomy. These websites could be viewed before or after Starlab’s visit to your school and can be used to introduce new material or review information. The websites are organized by topic and by grade level. BrainPop Jr. websites are written for students in kindergarten through 3<sup>rd</sup> grade. BrainPop websites are written for students in 3<sup>rd</sup>-5<sup>th</sup> grade. The teacher may decide to show specific sites depending on the students’ prior knowledge and the abilities of their students.**
