

Inclement Weather

The Maple Syrup program will be held in rain, snow, or heat. Appropriate measures will be taken to keep all students safe in inclement weather but the Maple Syrup Program will still take place. If there is a need to cancel the trip due to severe inclement weather, the Outdoor Science staff will contact the teacher or school to make a final decision. *For Camp Puh'Tok programs, we follow the Hereford Zone delays and cancellations. Please remind all students and adults to dress appropriately for the possible weather conditions of the day.*

Camp Puh'Tok and Oregon Ridge Nature Center follow BCPS school closings and delays. If schools are closed, the Maple Syrup Program will be cancelled and every effort will be made to reschedule the field trip. The Outdoor Science staff will be in communication with the Department of Science in reference to any early school closures and will dismiss accordingly.

Camp Puh'Tok ONLY: If schools are delayed one hour, the program will be delayed one hour. If schools are delayed two hours, the program will be canceled and we will attempt to reschedule the field trip.

Oregon Ridge Nature Center ONLY: If schools are delayed one hour, try to arrive as close to the original 10 A.M. start time as possible. *Schools must arrive before 10:30am for the program to take place.* If schools are delayed two hours, the program will be canceled and we will attempt to reschedule the field trip.
