

BCPS SECONDARY STEM FAIR 2009

Physics Olympics!

**Middle School
Challenge!**

**Science Fair
Displays!**

Mathematics ARML

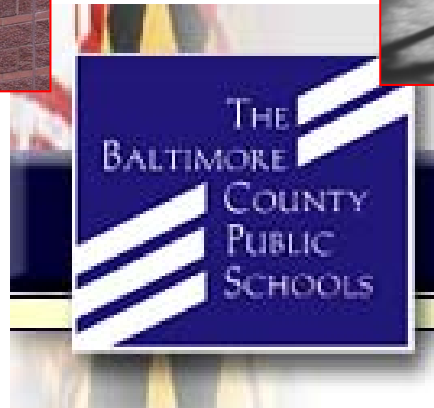

DETAILS

February 21, 2009

8:00AM to 1:00 pm

Dulaney High School (Physics
Olympics and ARML)

Windsor Mill Middle School (MS
Challenge)

The Secondary STEM Fair provides the opportunity for students and teachers to showcase science at the middle and high school level. Featured events include Physics Olympics and the Middle School Challenge in which teams of students from schools around the county use their knowledge of science in good-natured competitive fun. Winners of the competitions receive various ribbons, medals, and trophies for placing in the events.

In addition, the Secondary STEM Fair also provides the opportunity to display some of the best middle and high school science fair projects from local school-based science fairs across the county.

Come join us for the 3rd Annual Secondary STEM Fair!
