School Volunteer of the Year

Name of volunteer: _____

Please take into consideration the volunteer's impact on students, their wellbeing and academic progress; the volunteer's ability to rally additional resources (human or material) to support the school; the volunteer's contributions to the spirit of the school; and/or the special skills/knowledge that the volunteer brings to the school community. The volunteer of the year does not need to be the individual who contributed the most hours, but rather the volunteer who has added significant or unique value to the school community.
