A Counting Game

Use the number cards below to help your child count sets.

1. Show a number card and have your child count that many small objects. You can use items such as cereal, pasta, buttons, or game pieces.

2. Place number cards inside the cups of a muffin pan. Have your child count and place the correct number of small items into each cup.

**Number Cards**

1  2  3  4
5  6  7  8
9  10
