Student Responses to the 2018 BCPS Stakeholder Survey

(Response Rate: 69.0 %)

Superintendent's Note

Dear school community,

Thank you for being part of the 2018 Stakeholder Survey. We are so proud that participation from students, parents, staff, and community members in the past year increased 11 percent to 90,217 responses.

We are providing every school with its own report on student responses. Page two focuses on academic aspirations, belonging, and student support because we know that students who agree with these questions have better achievement, growth, and behavior. We also know that we can help students improve these perceptions, which improves their outcomes.

Take a look at how students at your school felt in spring 2018. What challenges and opportunities do you see? I look forward to partnering with you to prepare every student for a successful future as all schools strengthen literacy across the content areas and promote positive school climates.

Verletta White
Interim Superintendent

Reporting Student Responses

This report contains student responses to questions on the 2018 Stakeholder Survey for your school. Most survey questions are organized under the following three areas:

- Academic Aspirations measures students' perceptions of teacher expectations, their interest and engagement in class, and belief that their BCPS education will allow them to succeed in the future.
- Belonging measures the extent to which students feel physically and emotionally safe at school. Items in this domain address the overall school environment and peer-to-peer relationships.
- Student Support measures the communication and social support that students receive in school and includes the relationships students have with their teachers and other adults in the school.

Additional questions not grouped within the areas above are also reported. These include questions regarding bullying, challenging schoolwork, school pride, and school effectiveness.

Domain Index Scores

Index scores are a summary of multiple survey items within each domain ranging from 0 (a completely negative perception) to 100 (a completely positive perception). Items within each domain are listed at the end. Below is a description of what this represents for each domain.

Domain	At low end of Index Score	At high end of Index Score
Academic Aspirations	Students are disengaged and feel ill-prepared for the future. They may underestimate the importance of performing well academically and not see the utility of the topics covered in classes.	Students are engaged and feel academically prepared for the future. Students understand the importance of academic achievement and have high expectations for academic performance.
Belonging	Students experience and witness peer relationships and interactions that are characterized by unresolved conflict. They may find their school to be unsafe and not welcoming.	Students experience and witness peer relationships and interactions that are characterized by mutual respect. They also perceive their school environment as safe and welcoming.
Student Support	Students do not feel respect or care from adults in their school. Students perceive challenges in communication between them and adults. These students may feel as though their opinions and perspectives are not valued by adults.	Students experience relationships with adults that are characterized by trust, care, and respect. Positive, two-way communication occurs between teachers and students, with students feeling as though teachers listen to their opinions and provide useful feedback.
