

NEW CONSTRUCTION: Designing

School Building Design

The Superintendent shall establish administrative procedures to prepare plans and specifications for the renovation, modernization, and new construction of school buildings and building systems. All design and construction work shall be in compliance with applicable local and state codes, laws, and regulations. Approval of fiscal authorities for funds necessary to defray the cost of design and construction is mandatory prior to the commencement of any work. These procedures shall be subject to such local intergovernmental agreements as may be entered into by the Board of Education.
