

STUDENTS: Computation of Class Rank

Beginning with the graduating class of 1997, quality points and class rank will be determined in the following manner.

Quality Points Table

<u>Course Level</u>	<u>A</u>	<u>B</u>	<u>C</u>	<u>D</u>	<u>E</u>
G/T	6	5	4	1	0
Honors	5	4	3	1	0
Standard	4	3	2	1	0
Basic	4	3	2	1	0
Special Education	4	3	2	1	0

Class rank will be computed for every high school student by dividing the total number of quality points accumulated by the total number of credits attempted. This computation will be correct to the 3rd decimal place, i.e., nearest thousandth. Students will then be ranked from highest to lowest based on the score obtained by the process described above.

Class rank lists will be produced two times -- once at the end of the 11th grade using the final grade. The next list will be produced at the end of the senior year. The final grade of the senior year will be used to determine the Valedictorian and the top 5% of the senior class.
