Appendix p. Redistribution of Enrollment Projections for Schools

**Introduction:** BCPS school boundary changes occur in accordance with Policy and Rule 1280. When these occur, it is usually necessary to redistribute enrollment projections to account for the anticipated impact.

- If the boundary change is approved by the Board of Education (BOE) prior to annual enrollment projection calculations (November/December), the student movement is incorporated into projection methodology.
- If boundary changes are approved by the BOE in a December–March timeframe with changes affecting the coming school year, enrollment projections at affected schools are redistributed, per the methodology outlined below.

**Dogwood Elementary School Capacity Relief Study (2020–2021 implementation)**
**Status:** Approved

This boundary study was approved June 11, 2019. This study served to relieve Dogwood Elementary School via redistricting. Enrollment projection changes resulting from this study are incorporated into 2020–2029 enrollment projections.

The approved boundary adjustment affects two elementary schools (Dogwood Elementary and Featherbed Lane Elementary) and is effective beginning Fall 2020.

**Johnnycake Elementary School Capacity Relief Study (2020–2021 implementation)**
**Status:** Approved

This boundary study was approved June 11, 2019. This study served to relieve Johnnycake Elementary School via redistricting. Enrollment projection changes resulting from this study are incorporated into 2020–2029 enrollment projections.

The approved boundary adjustment affects two elementary schools (Johnnycake Elementary and Edmondson Heights Elementary) and is effective beginning Fall 2020.

**Pleasant Plains Elementary School Capacity Relief Study (2020–2021 implementation)**
**Status:** Pending Approval

This boundary study is underway with a recommendation to the BOE pending February 11, 2020, and a final decision pending March 10, 2020. This study serves to relieve Pleasant Plains Elementary School via redistricting. Enrollment projection changes resulting from this study are pending and will be incorporated into the 2020–2029 enrollment projections in a June 2020 revision to this document.

The approved boundary adjustment will be effective beginning Fall 2020.
