February 2020

Dear Education Partners:

Baltimore County Public Schools (BCPS) is committed to providing every student with the highest quality, 21st century education in a safe, secure, and positive environment. This commitment ensures there are high levels of teaching, learning, and student engagement, resulting in globally competitive students prepared for their chosen college and or career path. The timely and transparent exchange of information with our community stakeholders is an essential part of this work.

The annual Students Count report provides a foundation from which we may examine and make informed decisions about how to best serve the students of Baltimore County. The report contains enrollments and enrollment projections. It also, includes utilization data and thematic maps for all BCPS’ schools, centers, and programs.

BCPS continues to collaborate with the Baltimore County Government and the Sage Policy Group, Inc. to ensure accurate and continuous improvement in the projection process methodology. BCPS, Baltimore County Government, and the Maryland Interagency Commission on School Construction also worked closely to align capital project planning.

I am grateful for our ongoing collaboration and partnership with Baltimore County officials, our State Delegates, and the overall engagement of our Baltimore County community. Together, as partners in education, we can prepare every student to be globally competitive and equipped to lead in the 21st century.

For additional information, please visit the BCPS Web site, or call the Office of Strategic Planning at 443-809-4216.

Sincerely,

Darryl L. Williams, Ed.D.
Superintendent
