

Report on the Baltimore County Public Schools 2016 Stakeholder Satisfaction Survey

Department of Research, Accountability, and Assessment

May 13, 2016

Report on the Baltimore County Public Schools 2016 Stakeholder Satisfaction Survey

Executive Summary

The Baltimore County Public Schools (BCPS) Stakeholder Satisfaction Survey polls all facets of Team BCPS and focuses on the four goal areas of the BCPS five-year strategic plan, *Blueprint 2.0: Our Way Forward*. Several survey items correspond directly to *Blueprint 2.0* performance measures and are reported in the *Blueprint 2.0 Performance Report*. In addition, the survey contributes vital information to the evaluation and improvement of key activities that drive student and organizational performance and are used in school progress planning and department and office performance scorecard development.

This is third year that BCPS has surveyed all stakeholders in a consistent and broad-reaching online format. This year, the survey was available from February 1 through March 6, 2016 across multiple device platforms (e.g., desktop computer, mobile/phone, and tablet). The parent and community member versions of the survey were translated into 14 languages and the student survey was available in Chinese, English, and Spanish.

The survey received 73,130 total responses across all stakeholder groups. Participation in 2016 was consistent with prior year participation for several stakeholder groups; however, slight reductions were recorded for parents/guardians, community members, and school staff. Goal Area 4: Organizational Effectiveness demonstrated the most substantial positive increase. From 2014 to 2016, there were significant positive gains on several items by different stakeholder groups.

Highlights of Survey Results and Notable Changes

Survey findings are highlighted below to represent key components of each *Blueprint 2.0* goal area. From 2014 to 2016, most results remained consistent; however, notable changes are presented.

Goal 1: Academics

- Perceptions that BCPS sets high academic expectations is high across all stakeholders with the highest groups being elementary students (94%), parents (89%), school staff (92%), and central office staff (91%).
- Elementary students (68%) perceived less academic challenge than secondary students (middle school 84%; high school 86%) and parents (81%).
- Similar proportions of school (81%) and central staff (80%) agreed that the academic program is designed to meet the needs of all students, but fewer school administrators (73%) agreed.

2016 BCPS Stakeholder Satisfaction Survey

Executive Summary

- Staff (school staff 88%; school administrators 82%; central office staff 86%) and parents (83%) were more satisfied with efforts to prepare students for college and careers than high school students (78%).
- Over 73% of all parents and BCPS staff agreed that customized and personalized learning provide teachers the opportunity to meet the academic needs of all students.
- Over 80% of all students, parents, school staff and central office staff agreed that access to digital content and tools support customized and personalized learning.
- Over 81% of all parents and students agree that teachers are able to use technology to meet academic needs of all students. This is slightly higher than the average agreement among all BCPS staff (78%).
- Teacher satisfaction with collaboration opportunities during the school day increased eight percentage points (from 53% to 61%) from 2014 to 2016.

Goal 2: Safety and Security

- Overall perceptions of Goal 2 items remained stable from 2014 to 2016.
- There was a difference in perception regarding feeling safe at school between elementary (87%) and secondary (middle and high school both 73%) students who feel safe at school. Parents and school staff had perceptions that were similar to elementary students. Eighty-five percent of central office staff reported feeling safe in their workplace. Despite having the majority of students, parents, and staff feeling safe within BCPS, community members' perception of safety was not as strong (67%).
- Students perceive bullying as a problem (45%) more than parents and school staff (30%).
- The perception from all student groups is that adults respect students more than students respect each other (80% versus 69%).
 - Adults respect students (elementary school 91%; middle school 77%; high school 76%). Adults care about them (elementary school 92%; middle school 77%; high school 71%).
 - Students respect each other at school (elementary school 73%; middle school 37%; high school 41%).

Goal 3: Communication

- Parents and school staff reported the most agreement among all stakeholders regarding the openness, timeliness, and clarity of communication efforts (83% and 73%), and the availability and ease of accessing information (82% and 85%).
- Agreement among school administrators that BCPS communication is open, clear, and timely increased six percentage points (from 66% to 72%) from 2014 to 2016.
- Despite having relatively low overall satisfaction from a small number (n = 466), community members agreement that BCPS communication is open, clear, and timely

2016 BCPS Stakeholder Satisfaction Survey Executive Summary

increased 14 percentage points (from 49% to 63%) and agreement that BCPS provides opportunities for two-way communication increased 12 percentage points (from 53% to 65%) from 2014 to 2016.

- Elementary students (88%) and parents (89%) expressed more agreement than secondary students (middle and high school both 75%) that they feel welcome at school.
- Elementary students (87%) expressed more agreement than secondary students (middle school 82%; high school 76%) that teachers tell them how they did on classwork, tests, and homework.
- Among adults, school staff (93%) were more satisfied with communication to parents about student progress than parents (82%). School administrators expressed the least satisfaction regarding communication to parents about student progress (78%).
- School staff (84%) were the most satisfied with performance feedback from supervisors, followed by central office staff (76%) and school administrators (74%).

Goal 4: Organizational Effectiveness

- Stakeholders were asked to grade the effectiveness of BCPS, their school, and/or their department. Grades that would be considered passing in the school setting (e.g., A, B, and C) were considered effective.

Effectiveness was reported by: parents (89%), staff (school staff 85%; school administrators 84%; central office staff 87%), and community members (75%). At least 84% of stakeholders gave high grades for school and department effectiveness, and 89% of school staff graded their school as effective.

- From 2014 to 2016:
 - Community members who graded BCPS as effective increased 15 percentage points (from 60% to 75%) and
 - Parents who graded BCPS as effective increased nine percentage points (from 80% to 89%).
- Although community members, a relatively small reporting group, reported lower satisfaction with the school system than parents, students, and staff; the percentage of community members who would recommend BCPS to others increased 10 percentage points (from 58% to 68%).
- Agreement about student pride among middle and high school students increased nine percentage points (middle from 66% to 75%; high from 62% to 71%) from 2014 to 2016.
- Parent satisfaction with the superintendent's leadership and vision increased 11 percentage points (from 61% to 72%) from 2014 to 2016.
- Satisfaction among community members with the superintendent's leadership and vision increased 15 percentage points (from 41% to 56%) from 2014 to 2016.
- Agreement from both parents and community members that stakeholders work together to solve school challenges increased from 2014-2016. Among parents the increase was

2016 BCPS Stakeholder Satisfaction Survey Executive Summary

eight percentage points from 71% to 79% and among community members the increase was 15 percentage points from 46% to 61%.

- Agreement from school staff that students have access to instructional technology needed to succeed increased 11 percentage points (from 70% to 81%) from 2014 to 2016.
- Agreement from school administrators that students have access to instructional technology needed to succeed increased 11 percentage points (from 67% to 78%) from 2014 to 2016.
- School staff (87%) and administrators (82%) were more satisfied with opportunities for professional growth than central office staff (73%). All three stakeholder groups provided similar ratings of the relevance of professional development to their work (school staff and administrators 77%; central office staff 74%).

Report on the Baltimore County Public Schools 2016 Stakeholder Satisfaction Survey

The 2016 Baltimore County Public Schools (BCPS) Stakeholder Satisfaction Survey polled all facets of Team BCPS. The survey focused on the four goal areas of the BCPS five-year strategic plan, *Blueprint 2.0: Our Way Forward*: academics, safety and security, communication, and organizational effectiveness.

Survey Administration

The online survey was available from February 1 through March 6, 2016. Stakeholders who serve more than one role, such as a BCPS parent who works for the school system or a parent with children at multiple schools, were encouraged to take the survey multiple times to reflect those experiences. The survey was available to stakeholders across various device platforms (e.g., desktop computer, mobile/phone, and tablet).

Respondents first identified as one of eight stakeholder groups: students, parents/guardians, community members, school staff, school administrators, or central office staff. A four-point scale was used for most items (strongly agree, agree, disagree, and strongly disagree). Other items included yes/no responses and a five-point grading scale of the system and individual schools. Respondents could skip any items in the four *Blueprint 2.0* goal areas; therefore, the choice of “not applicable” was not offered.

Respondents

There were 73,130 responses in 2016 as shown below.

Stakeholder Group	Response Rates		
	Response Number	Group Number	Response %
Elementary School Students (Grades 4-5)	15,720	17,337	90.7
Middle School Students	18,446	23,989	76.9
High School Students	21,359	31,423	68.0
Parents/Guardians	8,137	n/a	n/a
Community Members	466	n/a	n/a
School Staff (teachers, department chairs, paraeducators, non-instructional staff)	7,225	n/a	n/a
School Administrators (principals and assistant principals)	460	438	n/a
Central Office Staff	1,317	2,192	60.1
Total	73,130		

Note. Student group numbers are based on enrollment at the end of the second quarter.

n/a = not available: Exact rates could not be calculated due to unknown population count (i.e. staff working in multiple buildings were encouraged to take the survey at each location.)

The parent and community member versions of the survey were translated into 14 languages. A total of 120 parents and community members responded using translated languages as shown in the following table. The student survey was available in Chinese, English, and Spanish with 397 students using the translated versions.

Parent/Guardian and Community Member Responses by Language		
Language	Count	Response %
English	8,483	98.61
Spanish	72	0.84
Chinese	16	0.19
Arabic	9	0.10
Korean	9	0.10
French	4	0.05
Russian	3	0.03
Urdu	2	0.02
Uzbek	2	0.02
Amharic	1	0.01
Gujarati	1	0.01
Yoruba	1	0.01
Total	8,603	

Note. Additional languages available but not selected include: Nepali, Tagalog, and Vietnamese.

Student Responses by Language		
Language	Count	Response %
English	55,128	99.29
Spanish	360	0.65
Chinese	37	0.07
Total	55,525	

Despite increased outreach efforts, there continue to be voices missing. Barriers to survey participation may have included the online nature of the survey, language proficiency, fear of retaliation, and motivation. Recognizing that there are missing voices is an opportunity to make adjustments to include even more voices in future survey administrations.

Highlights of Survey Results

Selected survey findings are presented below by *Blueprint 2.0* goal area. Results by stakeholder for every survey item are provided in the Appendix.

Goal 1: Academics

Every student will experience high academic achievement and continuous growth by participating in a rigorous instructional program designed to raise the academic bar and close achievement gaps so that every student will become a globally competitive citizen in a culturally diverse world.

To graduate all students globally competitive, BCPS has several strategies in place. High academic expectations are reflected in school progress planning, which now focuses on individual student growth instead of the average proficiency of student groups. Ensuring that each student is challenged is a foundation of the BCPS Teaching and Learning Framework, and is a focus of ongoing training on personalized learning. The Board policy on equity and equity leadership training are driving reforms that increase opportunity. Curriculum is aligned to more rigorous college and career readiness state standards in English language arts and math. The system wide transformation to create learner-centered environments is using S.T.A.T. (Students and Teachers Accessing Tomorrow) BCPS One to customize and personalize learning.

High Academic Expectations

Agreement that student academic expectations were high exceeded 90 percent for elementary students, school staff, and central office staff; fewer community members agreed.

Figure 1. Setting High Expectations

Stakeholder	Item
ES Students	My teachers have high expectations for me to do well in school.
MS and HS Students	My teachers set high standards for learning in their classes.
Parents/Guardians	The school sets high academic standards.
Community Members	BCPS sets high academic standards.
School Staff	My school has high expectations for the academic performance of all students.
School Administrators and Central Office Staff	BCPS has high expectations for the academic performance of all students.

Academic Challenge

Elementary students and community members perceived less academic challenge than secondary students and parents. Because item wording varied, items are provided below by stakeholder.

Figure 2. Challenging Our Students

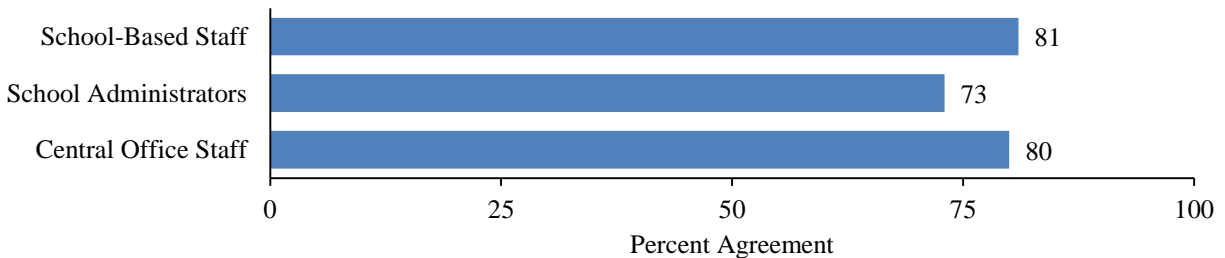

Stakeholder	Item
ES Students	My school work is challenging.
MS and HS Students	I am given challenging work at my school.
Parents/Guardians	The school challenges students to maximize their potential.
Community Members	BCPS challenges students to maximize their potential.

Equity

Similar proportions of school and central staff agreed that the academic program is designed to meet the needs of all students, but fewer school administrators agreed.

Figure 3. Meeting the Needs of All Students

Stakeholder	Item
School Staff	The academic program at my school is designed to meet the needs of all students.
School Administrators and Central Office Staff	The academic program in our school system is designed to meet the needs of all students.

College and Career Readiness

Staff and parents were more satisfied with efforts to prepare students for college and careers than high school students and community members. Because item wording varied, items are provided below by stakeholder.

Figure 4. Preparing Students for College and Career

Stakeholder	Item
HS Students	By the time I graduate, I will be prepared for college and/or a career.
Parents/Guardians	The school's academic program prepares students for college and career.
Community Members	BCPS' academic program prepares students for college and career.
School Staff and Administrators	I see how my work contributes to students' college and career readiness.
Central Office Staff	I see how the work of my department contributes to students' college and career readiness.

Customized and Personalized Learning

School and central office staff expressed most agreement that customized and personalized learning provide teachers the opportunity to meet the needs of all students.

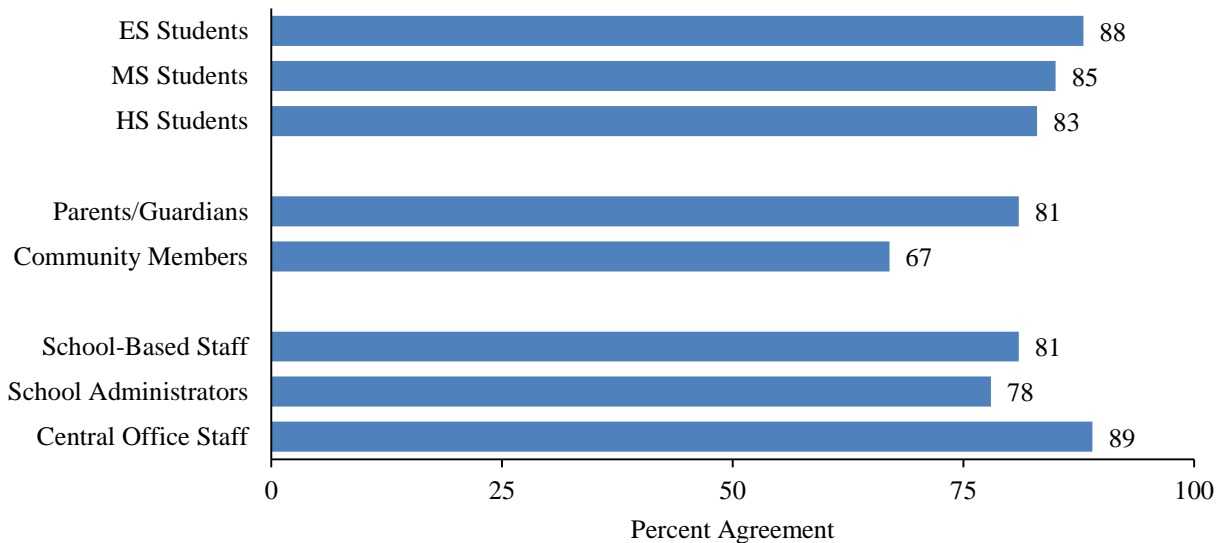

Figure 5. Customized and personalized learning provides teachers the opportunity to meet the academic needs of all students.

Access to Digital Content

At least 81 percent of students, parents, school staff, and central office staff agreed that access to digital content and tools supports customized and personalized learning.

Figure 6. Access to Digital Content

Stakeholder	Item
All Students	Access to digital content and tools supports my learning.
Parents/Guardians, Community Members, School Staff and Administrators, and Central Office Staff	Access to digital content and tools supports customized and personalized learning.

Teacher Use of Technology

Students, parents, and central office staff were most satisfied that teachers can use technology to meet the academic needs of all students.

Figure 7. Teacher Use of Technology

Stakeholder	Item
All Students	My teachers are able to use technology to meet my academic needs.
Parents/Guardians, Community Members, School Staff and Administrators, and Central Office Staff	Teachers are able to use technology to meet the academic needs of all students.

Goal 2: Safety and Security

Every school and office will be safe and secure, promote individual well-being, and provide positive, respectful, and caring environments for teaching, learning, and working.

Safety and security are a priority for ensuring high levels of teaching and learning. Systemwide strategies include controlled entry, visitor identification, visitor screening, safety and security plans, and security equipment as well as staff training and partnering with the Baltimore County Police Department. BCPS also implements mentoring initiatives, character education, online bullying reporting, and student-led bullying prevention.

Safety at School and Work (Blueprint 2.0 Performance Measure)

There was a gap in the percentage of elementary and secondary students who feel safe at school. Parents and staff had perceptions that were similar to elementary students, but those of community members were the lowest.

Figure 8. Safety at School and Work

Stakeholder	Item
All Students	I feel safe at my school.
Parents/Guardians	The school is safe and secure.
Community Members	BCPS schools are safe.
All Staff	I feel safe and secure at work.

Bullying

More students than adults reported that bullying is a problem at school. More than half of middle school students agreed, with elementary and high school agreement above 40 percent. School administrators expressed the least agreement.

Figure 9. Bullying Is a Problem

Student Respect

A large gap separated elementary and secondary students when asked three items: whether students respect each other at school, whether adults respect students, and whether adults care about them. Parents had the highest level of satisfaction with student respect, while middle school students had the lowest.

Figure 10. Students Respect Each Other

Stakeholder	Item
All Students	Students at my school treat me with respect.
Parents/Guardians	Students respect each other at this school.
School Staff and Administrators	Students at my school respect each other.

Figure 11. Most adults at my school treat me with respect.

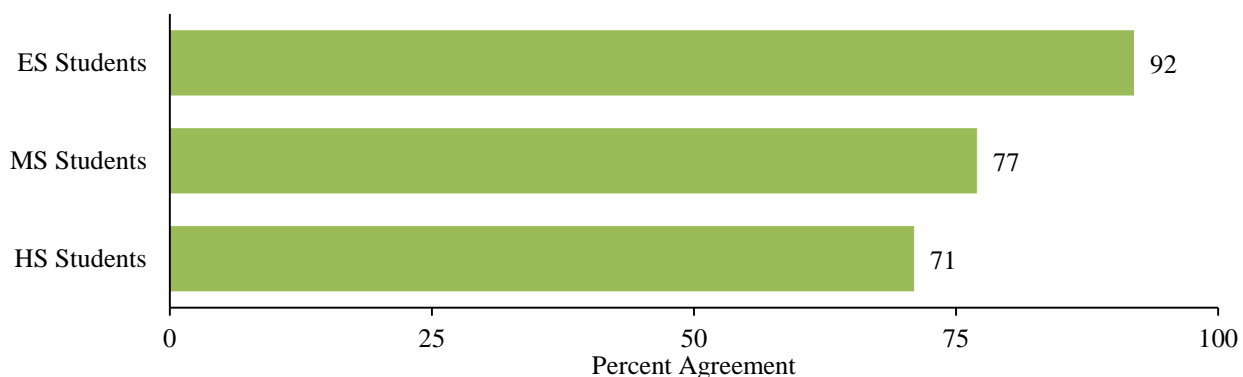

Figure 12. Most adults at my school care about me as a person.

Goal 3: Communication

Every stakeholder will experience clear, timely, honest, transparent, and widely available communication about system initiatives and activities that engages them in building a culture of trust through action and establishes BCPS as a world-class school system.

BCPS outreach engages the entire community known as Team BCPS—including students, parents, residents, and business leaders—to support student success. BCPS has expanded face-to-face outreach including town halls, forums, and advisory groups as well as new online tools such as the Stakeholder Satisfaction Survey, mobile app, blog, e-newsletter, and meetings that are live-streamed and video archived. Parent University was developed to support parents as every child’s first teacher through in-person and online resources. The website was redesigned, and social media tools are used more often. Schools build relationships with families with support from the Office of Family and Community Engagement. Feedback about student and staff progress informs continuous improvement efforts.

Open, Clear, and Timely Communication (Blueprint 2.0 performance measure)

Parents and school staff expressed the most satisfaction with communication being open, clear, and timely while community members expressed the least.

Figure 13. Open, Clear, and Timely Communication

Stakeholder	Item
Parents/Guardians and Community Members	Communication to and from the school system is open, clear, and timely.
School Staff	Communication at my school is open, clear, and timely.
School Administrator	Communication in our system is open, clear, and timely.
Central Office Staff	Communication in my department is open, clear, and timely.

Information and Results Data (Blueprint 2.0 performance measure)

Parents and school staff agreed the most that information and results data were available and easily accessible while community members agreed the least.

Figure 14. Information and results data are available and easily accessible.

Welcoming Environment

Elementary students and parents expressed more agreement than secondary students that they feel welcome at school.

Figure 15. School Welcomes Me

Stakeholder	Item
All Students	I feel welcome at my school.
Parents/Guardians	I feel welcome at my child's school.

Feedback about Student Progress

Elementary students expressed more agreement than secondary students that teachers tell them how they did on classwork, tests, and homework. School staff were more satisfied with communication to parents about student progress than parents and school administrators.

Figure 16. Feedback about Student Progress

Stakeholder	Item
All Students	My teachers tell me how I do on my classwork, tests, and homework assignments.
Parents/Guardians	I am satisfied with the quality of information about my child's academic and social progress.
School Staff and Administrators	Teachers at my school communicate frequently to parents about student progress.

Performance Feedback for Staff

School staff were more satisfied with performance feedback from supervisors than central office staff and school administrators.

Figure 17. Usefulness of Performance Feedback

Stakeholder	Item
School Staff and Central Office Staff	My supervisor provides performance feedback that is useful to me.
School Administrators	Assistant superintendents provide performance feedback that is useful to me.

Goal 4: Organizational Effectiveness

Baltimore County Public Schools will maximize organizational efficiency and effectiveness by engaging in strategic efforts that employ rigorous, relevant, and reasonable performance standards that provide for all employees’ professional growth and shared accountability for student, school, and organizational performance.

System, school, and department effectiveness are driven by a performance management system where staff set measurable goals and document progress. Supporting the professional growth of every employee is a priority. Strategies are underway to prepare school staff for leadership positions, to offer career ladders that keep excellent teachers in the classroom, and to provide leadership training to those working in central offices.

System, School, and Department Effectiveness

Stakeholders were asked to grade the effectiveness of BCPS, their school, and/or their department. Grades of A, B, and C were considered effective. Parents and staff gave BCPS the highest grades; community members expressed the least satisfaction. School and department grades were high across stakeholders.

Figure 18. Graded BCPS as Effective (A, B, or C)

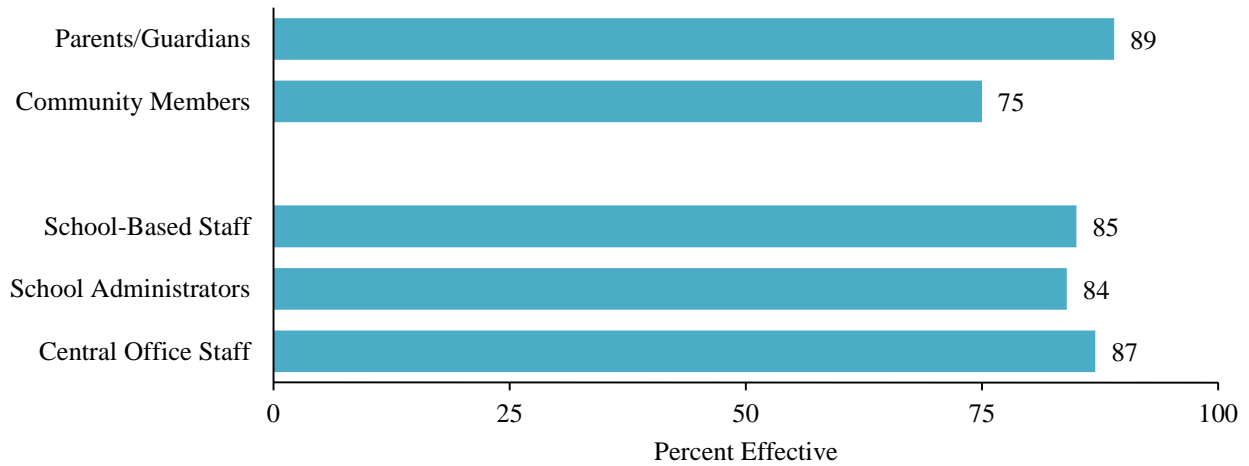

Figure 19. Graded School/Department as Effective (A, B, or C)

Recommend School to another Parent

Parents and school administrators were similarly likely to recommend their school/a BCPS school to another parent while school staff were least likely to do so.

Figure 20. Would Recommend School to Another Parent

Stakeholder	Item
Parents/Guardians	Would you recommend this school to other parents?
School Staff	Would you send your child to this school or recommend this school to another parent?
School Administrators	Would you send your child to a school in our system or recommend schools in this system to another parent?

Professional Growth

School staff and administrators were more satisfied with opportunities for professional growth than central office staff. However, these three stakeholder groups provided similar ratings of the relevance of professional development to their work.

Figure 21. I have opportunities for professional growth.

Figure 22. Professional development offerings are relevant to my work.

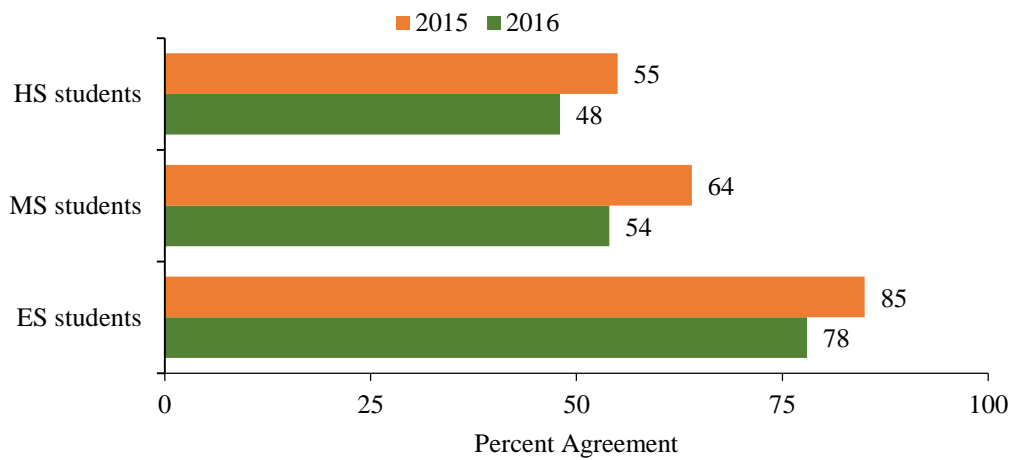

Notable Changes

From 2014 to 2016, most results remained consistent; however, there were notable changes which are presented below. There were no notable changes for items related to Goal 2: Safety and Security.

Goal 1: Academics

- On the item “*Students do their best, even when work is difficult,*” agreement decreased 10 percentage points for middle school students from 2015 to 2016. Note: This item was introduced in 2015; therefore, there are no 2014 data.

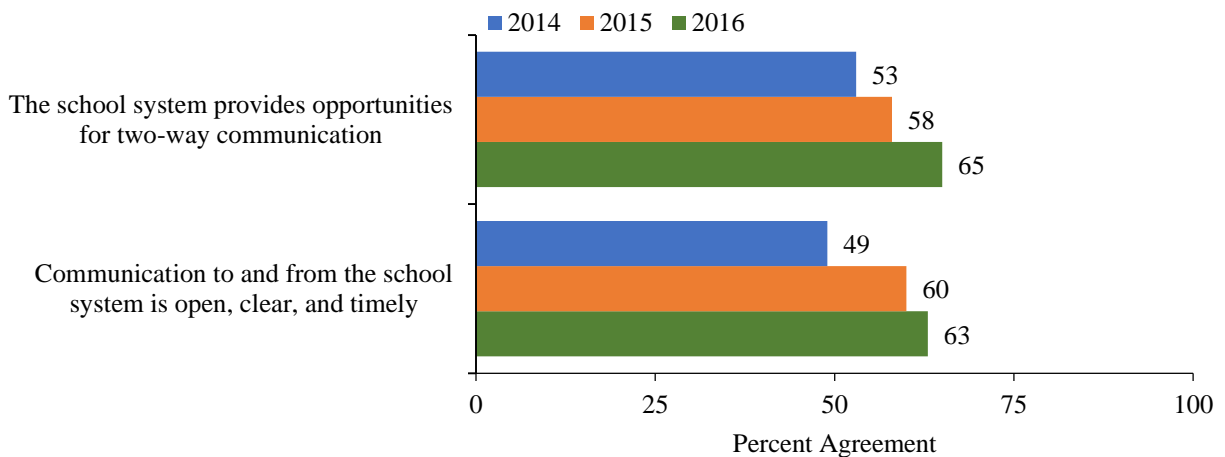

Figure 23. Student Effort

Goal 3: Communication

- Agreement from community members increased 12 and 14 percentage points on two communication items from 2014 to 2016.

Figure 24. BCPS Communication

Goal 4: Organizational Effectiveness

- The percentage of community members who would recommend BCPS to others increased 10 percentage points from 2014 to 2016.

Figure 25. Recommending BCPS

- The percentage of community members who graded BCPS as effective increased 15 percentage points from 2014 to 2016.

Figure 26. BCPS Effectiveness—Community Members

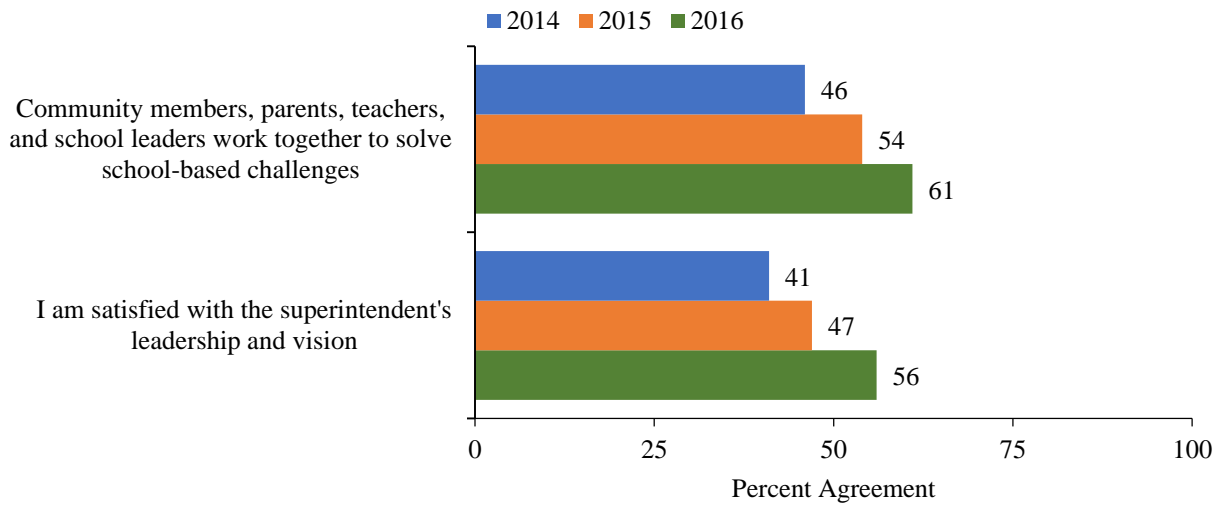

- The percentage of parents who were satisfied with the superintendent’s leadership and vision increased 11 percentage points from 2014 to 2016.

Figure 27. Superintendent’s Leadership—Parents

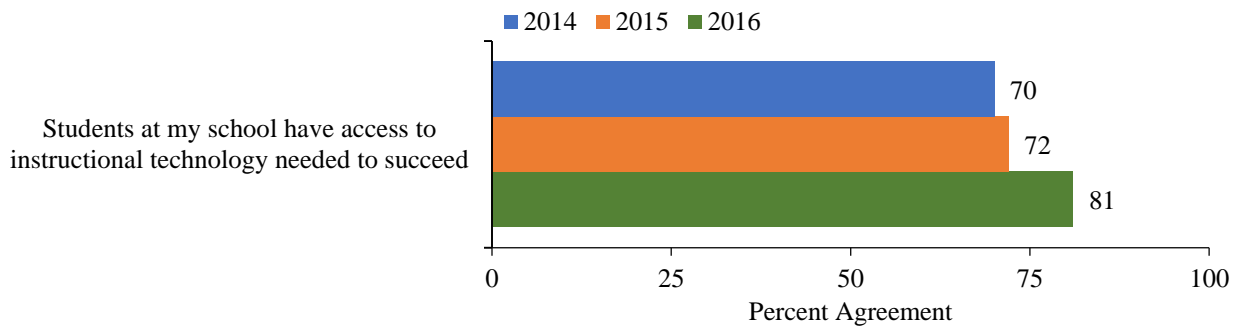

- Agreement from community members on these organizational effectiveness items increased 15 percentage points from 2014 to 2016.

Figure 28. Community Collaboration and Superintendent’s Leadership—Community Members

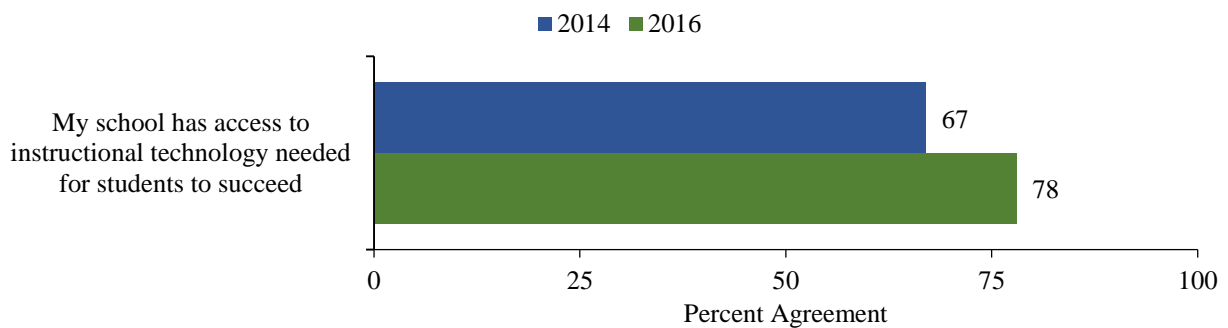

- Agreement from school staff that students have access to instructional technology increased 11 percentage points from 2014 to 2016.

Figure 29. Access to Instructional Technology—School Staff

- Agreement from school administrators that their school has access to instructional technology increased 11 percentage points on this item from 2014 to 2016.

Figure 30. Access to Instructional Technology¹—School Administrators

¹ Responses from school-based administrators in 2015 were excluded because a significant percentage of respondents misidentified as school-based administrator.
