BALTIMORE COUNTY PUBLIC SCHOOLS

Joe A. Hairston, Superintendent

6901 Charles Street Towson, MD • 21204-3711

November 2009

Dear Educational Partners:

The *Blueprint for Progress* provides a foundation of clear standards and accountability for everyone involved in education in Baltimore County. As guided by the *Blueprint for Progress*, one of our goals is that all students will receive a quality education through the efficient and effective use of resources. Our commitment to that goal is reflected in the *September 30, 2009 Enrollments, Projections, and Capacities Report*. This report provides detailed information about current student population as well as population trends over the past five years. This information is used to make informed decisions relative to the resources required to best meet the needs of our students.

Baltimore County Public Schools continues to achieve what all school systems aspire to accomplish – continuous progress in raising student achievement. Our community stakeholders are essential partners in this work. The exchange of information and ideas is at the heart of the educational process and, as such, I am pleased to be able to share this report with you.

For additional information and an electronic version of this report, please visit the Office of Strategic Planning's Web site at http://www.bcps.org/offices/strategic_planning or call 410-887-4216.

Sincerely,

Joe A. Hairston
Superintendent

Frequently Asked Questions about Enrollments, Projections, and Capacities

When are enrollments counted?

The official enrollments for all schools are calculated on September 30 in accordance with the Maryland State Department of Education (MSDE) policies.

What is Full Time Equivalent Enrollment?

Full Time Equivalent Enrollment (FTE) is an adjustment made to a school's total enrollment for purposes of comparison to a school's capacity. FTE Enrollment factors 100% of students in grades Kindergarten through Grade 5, and 50% of students in Prekindergarten and Preschool programs. This is due to Prekindergarten and Preschool being half-day programs. No FTE conversion is required at secondary schools.

How often are enrollment projections updated?

Ten year enrollment projections are updated annually to assure the latest data trends and availability.

Are enrollment projections accurate?

In alignment with the *Blueprint for Progress* Indicator 8.5, the target accuracy is 99% for systemwide projections. This goal has been met consistently over the past several years, including September 30, 2009 (99.69% accuracy). The target accuracy for individual schools is +/- 40 students.

How is capacity calculated?

State Rated Capacity (SRC) is determined by a MSDE formula based on the number of teaching stations and their utilization. SRC applies to the main building and permanent additions. SRC does not include relocatable units.

At the elementary level, SRC is calculated as follows:

- Regular classroom (Grades 1-5) 23 seats
- Self-contained special education classroom 10 seats
- Kindergarten classroom 22 seats
- Prekindergarten classroom 20 seats
- Zero-capacity allowances: cafeteria, gymnasium and multi-purpose rooms, computer lab, art, vocal music, instrumental music, reading resource, science storage and preparation rooms

At the secondary level, SRC is calculated as follows:

- Regular classroom/computer classroom (Grades 6-12) 25 seats x 85% utilization
- Self-contained special education classroom 10 seats x 100% utilization
- Gymnasium (2 classrooms) 50 seats x 85% utilization
- Zero-capacity allowances: computer lab
- Teaching stations used for activity rooms, dance studios, weight rooms, science labs, art, music, technology education, family studies, and business classrooms all count as teaching stations (25 seats x 85% utilization)
- Teaching stations that can be separated by moveable walls or partitions (such as those in some designed auditoriums) also contribute to capacity (25 seats x 85% utilization)

Why is capacity important?

When FTE enrollments approach 90% of capacity and higher at a school, the consideration of implementing enrollment relief strategies begins.

Why does capacity change?

The SRC is recalculated and submitted for approval to the Maryland Department of Planning (MDP) when teaching station utilization changes occur within a school.

**Changes to the State Rated Capacity of Baltimore County Public Schools

Baltimore County Public Schools

2005 - 2009 Enrollment Projections and Comparisons

Baltimore County Public Schools Office of Strategic Planning

*Focused
on Quality;*

*Committed to
Excellence*

The following charts display a 5 year history of projections and enrollments for the five administrative areas of Baltimore County Public Schools.

All projections and enrollments reflect a date of September 30 of the given year.

Differences highlighted in red note differences of greater than +/- 40 students, which is the projection goal for individual schools.

Revised 10/13/2009

BCPS 1 Year Enrollment Projection Accuracy

Year	Projection	Official Enrollment	+/- Projection	Accuracy	Indicator Met?
2005	108,140	107,386	-754	99.30%	yes
2006	107,100	106,182	-918	99.14%	yes
2007	105,330	104,714	-616	99.42%	yes
2008	103,380	103,643	263	99.75%	yes
2009	104,155	103,832	-323	99.69%	yes

BCPS Blueprint for Progress Indicator 8.5

"The student enrollment projections will have a 99.0% accuracy rate. (BCPS Standard)"
