

BALTIMORE COUNTY PUBLIC SCHOOLS

Dr. Myriam Rogers (Yarbrough) ♦ Superintendent ♦ 6901 North Charles Street ♦ Towson, MD ♦ 21204

PROPOSED FY2025 OPERATING BUDGET Responses to Board Members' Questions – Set #1 January 23, 2024

FY2025 PROPOSED OPERATING REQUEST

Received from Mr. McMillion (January 16, 2024)

- I'm curious how the 3-year bargaining agreement between the BoE and the Unions effect all of our non-represented employees? Will these employees receive similar annual raises over the 3-year period.

Non-represented employees will also receive a 13% salary increase over the next three years.

Received from Ms. Henn (January 17, 2024)

General

- When will the Board receive the department-level budgets that have been provided and included in the budget book in the past? The proposed FY2025 budget book is 309 pages vs. the FY2024 budget book – 425 pages. If we are committed to increasing transparency around the budget, it seems counterproductive to provide less information.

The proposed FY2025 operating budget book highlights overall division position reductions by position group. Department-level information is not included to ensure that proper notice is provided to any impacted employee. Once finalized by the Board, the adopted FY2025 operating budget book will include department-level information, including any affected positions, budget by object class and budget by category.

- Without the department-level budgets, there are no line-item reductions shown for any budget other than Schools (for which reductions totaling \$21.3M are itemized).

Please see the chart below:

| General Fund Category | FY24 Adjusted | FY25 Proposed | Difference | % Change |
|------------------------------------|------------------------|------------------------|---------------------|--------------|
| Administration | 63,636,620 | 60,728,540 | (2,908,080) | -4.6% |
| Mid-level Administration | 131,789,966 | 125,903,820 | (5,886,146) | -4.5% |
| Instructional Salaries & Wages | 652,311,603 | 653,781,712 | 1,470,109 | 0.2% |
| Instructional Textbooks & Supplies | 38,368,049 | 32,570,615 | (5,797,434) | -15.1% |
| Other Instructional Costs | 59,397,418 | 77,748,019 | 18,350,601 | 30.9% |
| Special Education | 252,438,190 | 283,575,949 | 31,137,759 | 12.3% |
| Student Personnel Services | 19,505,847 | 20,395,713 | 889,866 | 4.6% |
| Health Services | 22,421,694 | 24,412,446 | 1,990,752 | 8.9% |
| Transportation Services | 100,857,586 | 93,173,132 | (7,684,454) | -7.6% |
| Operation of Plant | 135,099,985 | 141,301,178 | 6,201,193 | 4.6% |
| Maintenance of Plant | 48,137,762 | 43,441,239 | (4,696,523) | -9.8% |
| Fixed Charges | 374,843,357 | 386,102,735 | 11,259,378 | 3.0% |
| Community Services | 1,679,379 | 0 | (1,679,379) | 100.0% |
| Capital Outlay | 6,570,091 | 6,228,399 | (341,692) | -5.2% |
| Total | \$1,907,057,547 | \$1,949,363,497 | \$42,305,950 | 2.22% |

Source: Executive Summary – Chart details the difference in fund categories in dollars and percentage

| Appendix G. Curriculum and Instruction | | | |
|---|----------------------|------------------------|----------------------|
| POSITIONS (FTE) | FY23 ACTUAL | FY24 ADJ BUDGET | FY25 PROPOSED |
| PROFESSIONAL | 437.1 | 506.2 | 450.6 |
| SUPPORT STAFF | 104.1 | 156.9 | 116.9 |
| TOTAL FTE | 541.2 | 663.1 | 567.5 |
| BUDGET BY OBJECT CLASSES | FY23 ACTUAL | FY24 ADJ BUDGET | FY25 PROPOSED |
| SALARIES AND WAGES | 59,404,542 | 73,446,859 | 63,613,787 |
| CONTRACTED SERVICES | 11,054,517 | 22,805,968 | 16,981,462 |
| SUPPLIES AND MATERIALS | 12,017,408 | 23,415,940 | 21,218,143 |

| EQUIPMENT | 63,909 | 1,713,000 | 60,000 |
| TRANSFERS | 0 | 0 | 63,400,000 |
| TOTAL | \$149,501,396 | \$182,740,580 | \$171,665,742 |

Source: Page 197

A division roll-up is provided for each division (sample above). Position information – professional and supporting – is provided for the FY2024 adjusted budget compared to the FY2025 proposed budget. Additionally, the budget by object classes is provided for both years (FY2024 adjusted and FY2025 proposed) to provide insight into reductions.

- What reductions other than the reductions included for Schools were made? Please provide a revised budget book with department-level budgets included for Board and public review.

The proposed FY2025 operating budget book highlights overall division position reductions by position group. Department-level information is not included to ensure that proper notice is provided to any impacted employee. Once finalized by the Board, the adopted FY2025 operating budget book will include department-level information, including any affected positions, budget by object class, and budget by category.

- Where in the budget are funds allocated for CCBC Early Access? What is the status of funding for FY2025?

CCBC Dual Enrollment funds are included on page 197 in the Other Charges line. The total budget for Dual Enrollment is \$1,000,000.

School Budget Highlights (p. 124)

- If the reduction of 216.5 classroom teacher FTEs is due to the elimination of vacated positions and to match staffing to enrollment, why will the student: teacher ratio increase over current standards?

This is not due to vacated positions. The reduction in classroom teacher FTEs is reflective of an examination of each teaching position within a school and identifying that there were situations in which teaching staff did not have teaching responsibilities or had limited responsibilities. By clearly defining roles and instructional responsibilities, staffing has been realigned, ensuring staffing standards.

7. Given the current vacancies, what are the *actual* average / min / max student: teacher ratios *at present* for elementary / middle / high schools?

Please see the attached Class Sizes Summary Report.

8. What were the actual average / min / max student: teacher ratios, by grade, as of September 30, 2023 (state reporting)?

Please see the attached Class Sizes Summary Report.

9. If the enrollment for each elementary grade is forecasted to increase, why is a net decrease (-46) shown? (p. 105)

Please see the attached Class Sizes Summary Report.

10. Why is the reduction of 216.5 classroom teacher FTEs explained as “matching staffing to current enrollment” if the enrollment is projected to increase for all grades other than 6-8 (decreased by 77 students)? (p. 105)

The reduction in classroom teacher FTEs is reflective of an examination of each teaching position within a school and identifying that there were situations in which teaching staff did not have teaching responsibilities or had limited responsibilities. By clearly defining roles and instructional responsibilities, staffing has been realigned, ensuring staffing standards.

11. If the net enrollment forecast change across all grades is an increase of 1,384 students, how does a reduction of 216.5 classroom teacher FTEs match staffing to enrollment?

The reduction in classroom teacher FTEs is reflective of an examination of each teaching position within a school and identifying that there were situations in which teaching staff did not have teaching responsibilities or had limited responsibilities. By clearly defining roles and instructional responsibilities, staffing has been realigned, ensuring staffing standards.

12. What is the reduction of 22 FTEs noted as “Blueprint TSI to match formula reduction”? What are these positions and why are they being cut?

The Blueprint Transitional Supplemental Instruction (TSI) funding from the state is to begin sunsetting in FY2025 per the Blueprint legislation. This reduction is in line with the projected reduction of TSI revenue in FY2025.

13. What is the justification for the reduction of 20 work-based learning coordinators? How will this reduction affect student work-based learning opportunities? If no impact, who will assume these responsibilities?

This position is being redefined to be aligned with the work of the Blueprint and the partnership Baltimore County Workforce Development. Funding is distributed among the Community College, Baltimore County Government, and Baltimore County Public Schools for K-12 wrap around career counseling tied to regional employers. Funds are used to jointly support College and Career Readiness in partnership with the Baltimore County Department of Economic and Workforce Development (\$300 thousand increase versus FY2024 in total; Workforce Development budget total is \$7.1 million). FY2025 will include 25 new positions that are supported by the state revenue Blueprint formula (cost neutral). Positions will implement Career Counseling initiative for individualized career exploration and guidance. Funding also provides Junior Achievement to Grades 4/5, 7, and 8 for Career connections and financial literacy. A CTE Resource Center will also be implemented at the Junior Achievement facility for greater student and stakeholder connections to CTE pathways.

In collaboration with the Baltimore County Workforce Development Board and CCBC, and utilizing Blueprint dedicated funding, staff in BCPS has created a Career Navigator position that will support career counseling initiatives in alignment with Blueprint Pillar 3. To identify budget efficiencies, we have reimaged a regional model of Work Based Learning Coordinators who will work in partnership with school-based Career Navigators to support students in participating in career readiness exploration and opportunities including work experiences and apprenticeships.

14. What are the non ratio-based positions (4 FTEs) being cut? Which schools are impacted?

Once finalized by the Board, the adopted FY2025 operating budget book will include department-level information, including an affected position, budget by object class, and budget by category.

15. What is the reduction in number of responsibility factors (\$1.4M) and what is the specific impact on schools? Will this change the number of Department Chairs? If so, why is the number of Department Chairs the same in the FY2025 budget as in the adopted FY2024 budget?

The number of responsibility factors available for each school will be “right sized” from allocations of 15 and 14 per school to 9 and 8 in alignment with content areas. However, the staffing standard for secondary schools remains at 2.1 per school. The savings are achieved because there will be fewer FTEs receiving the responsibility factor. Once finalized by the Board, the adopted FY2025 operating budget book will include department-level information, including an affected position, budget by object class, and budget by category.

16. Magnet per pupil funding is being reduced by \$500K (from \$2,595,701 to \$2,095,701). For the 2022-2023 school year, 17,800 students were enrolled in magnet programs, for an approximate per pupil reduction of \$28. What impact will this reduction have on students in magnet programs? Why were magnet programs specifically targeted with such a significant one-year reduction (20%) when enrollment is forecast to increase? Other areas may have been reduced significantly; however, without the department-level budgets, it is indeterminate. As magnet funds are typically allocated to schools in the spring based on adopted budget funding, program selection and enrollment, could this funding be restored as contingent on available funds or be prioritized for BAT consideration?

As indicated to all stakeholders throughout the process, all departments and divisions were analyzed. Magnet programs were not targeted. A decrease of \$500,000 in magnet school per pupil funding is based on a review of the magnet program allocations to schools, the expenditures for magnet programs, and the amount of unspent magnet funds in several schools. Schools will submit budget proposals for approval based on actual expenditures for their programs, less promotional materials and funds will be allocated, accordingly. Magnet staffing allocations were absorbed in the operating budget and are formula based.

School Allocation Ratios (pp. 125-126)

17. The elementary school staffing allocation for Reading Specialists remains at 1 teacher for schools <700 students and 2 teachers for schools >700 students. With 56% of third grade students not proficient in ELA, how are we meeting the needs of students who need greater reading support? At these allocation ratios, what is the amount of individual reading instruction time each elementary student requiring it will receive weekly?

In addition to adopting HMH Into Reading, a standards-aligned, knowledge-building curriculum aligned to the science of reading in elementary schools, we have also implemented Amira in Grades K-3, to be used during responsive literacy instruction. Amira is an adaptive program designed to support all five pillars of reading. Amira actively listens to students as they read aloud, which allows Amira to provide personalized coaching, assess, and report on students' skills across the key pillars of reading, providing a holistic view of their literacy capabilities.

Amira delivers targeted micro-interventions across various aspects of reading, including phonological awareness, decoding, sight recognition, logic, literacy knowledge, language structures, and knowledge building. Each micro-intervention is a scaffold, supporting early readers in mastering foundational reading skills. Amira's micro-interventions are strategically aligned with the reading rope, ensuring a systematic and comprehensive approach to reading instruction and intervention.

In 5–7 minutes, Amira can listen to and assess a student’s reading, automatically generate a scored transcript of the reading session and provide teachers with actionable insights to accelerate literacy achievement. Amira is a valuable tool for teachers, enabling them to quickly gather information, track progress, and receive insights that can inform targeted instructional decisions. The combination of these features positions Amira as a powerful asset in addressing the diverse needs of students and enhancing overall reading proficiency.

Additionally, Transitional Supplemental Instruction (TSI) grant funded reading specialist positions have been allocated to schools who have less than 700 students and would only receive 1.0 FTE reading specialist based upon the BCPS Staffing Standards. For SY2024-2025, schools with projected student enrollments between 590 – 699 have been allocated with an addition 0.5 or 1.0 FTE reading specialist position to work directly with students in kindergarten through third grades.

18. How and where will the 18 new math specialist FTEs be allocated?

The math lead teacher will provide instructional support and assist teachers with understanding the rigor and coherence of the Maryland College and Career Ready Standards for Mathematics. They will work directly with teachers and teacher teams to build content knowledge across all elementary math domains. This position will develop foundational numeracy understanding with primary teachers, while building teacher capacity in the high leverage mathematical content related to specific Grades 3-5 standards, with a focus on Operations and Algebraic Thinking, Number and Operations – Fractions, and Number and Operations in Base Ten. To strengthen the connection between conceptual understanding, procedural fluency, and application, they will also embed professional learning on the use of visual representations and concrete models to support the development of strategic competence and adaptive reasoning in the elementary grades.

The following schools will be included in the pilot:

| |
|-------------------------------|
| Carroll Manor Elementary |
| Catonsville Elementary |
| Chapel Hill Elementary |
| Chesapeake Terrace Elementary |
| Edgemere Elementary |
| Fifth District Elementary |
| Fort Garrison Elementary |
| Franklin Elementary |
| Fullerton Elementary |
| Gunpowder Elementary |
| Harford Hills Elementary |

Proposed FY2025 Operating Budget
Responses to Board Members Questions

| Seven Oaks Elementary |
| Seventh District Elementary |
| Sparks Elementary |
| Summit Park Elementary |
| Timonium Elementary |
| Villa Cresta Elementary |
| Warren Elementary |
| Westchester Elementary |
| Woodbridge Elementary |

19. A reduction of 36.3 classroom teachers is proposed for reallocation as staff development teachers. From where will these classroom teachers be pulled?

This information is inaccurate. This is a new allocation and not a reallocation. Please clarify question.

20. On page 125, it states, “The allotment of department chair positions is provided so that the department chairs in English, social studies, science, and mathematics may have a reduced teaching load to provide professional development for teachers in their departments.” If not teaching FT, what is the teaching load of department chairs?

Historically, the teaching load has varied across and within individual schools. New guidance will be sent to standardize the teaching load of department chairs.

21. Why is the number of department chairs per middle / high school listed as 2.1 when there are more core subjects/chairs?

This is consistent with past practice for three years. Since department chairs teach some classes, an allocation of 1.0 department chair FTE per core subject is not necessary.

22. General Education enrollment is projected to be 106,649 students with a staffing allocation of 4,764 classroom teachers. Special Education enrollment is projected to be 15,800 with a staffing allocation of 1,268 teachers. Are these numbers accurate?

Those figures are correct. Note that the enrollment used to calculate general education staffing excludes students in Prekindergarten, alternative, home assigned/evening high, and special schools. The enrollment for special education excludes 47 students in Community Based Instruction (CBI) and 14 in College Outreach.

Received from Ms. Domanowski (January 17, 2024)

23. School-Based Budget (pg. 122-123)

- a. Of the 10,584.3 FTE's, how many or what percentage are full-time in classroom instructional teachers?

Of the 10,584.3 FTEs, there are 6,940 classified as full-time in classroom instructional teachers.

- b. Of the 1,545.4 Support Staff, how many or what percentage are considered part-time in classroom instructional teachers?

There are no part-time classroom instructional teachers within the 1,545.4 support staff category.

24. Curriculum and Instruction (pg. 196-197)

- a. How much or what percentage of the total C&I budget (\$171,665,742) is committed to current school-based C&I contracts? (For example: HMH Intro Reading and Lavina Summer ELA contracts)

\$16,980,000 of the C&I budget is allocated for contracted services. Additionally, the purchase of curriculum materials and supplies are purchased under approved contracts.

Lavinia is completely grant funded and no operating funds are being used for the summer instructional contract. For elementary summer programs, BCPS is using materials already available in all schools and as of 1/19/24, additional materials do not need to be ordered for summer elementary programs.

- b. Can we get an itemized or detailed list of all current contracts and what we are, or will be, committed to paying on those contracts for FY2025? How much or what percentage of the budget is set aside for "new" contracts in C&I?

An itemized listing of Board-approved contracts is archived in BoardDocs.

25. Board of Education (pg. 142-143)

- a. How much or what percentage of total budget (\$1,944,545) is set aside or dedicated to non-school related travel and expenses? (For example, any out-of-town conferences for staff and/or board members)

None (0%), all travel is school system related.

26. Superintendent (pg. 148-149)

- a. How much or what percentage of the total budget (\$2,219,277) is set aside or dedicated to any non-school related travel and expenses? (For example, any out-of-town conferences for the Superintendent and/or staff)

None (0%), all travel is school system related.

27. Information and Technology (pg. 238-239)

- a. 70.1% of the total Informational and Technology Budget is Contract Services, could we get an itemized or detailed list of all contracts and their total cost expected for FY2025?

The \$50 million budgeted for Contracted Services includes resources and licensing, with all Chromebooks supporting the 1-to-1 initiative, as well as staff devices and financed network equipment. An itemized listing of Board-approved contracts is archived in BoardDocs.

- b. Of the budgeted \$50,627,543 for contract services, how much or what percentage is being anticipated for "new" contracts?"

Only \$850,000 of the budget above covers newly requested items (device cases \$300,000 + shared desktops \$550,000). Neither requires a new contract.

28. Special Revenue Funds (pg. 245-271)

- a. For any costs where grant funding is being sourced, what is the plan for when/if actual costs exceed proposed costs and all grant funds have been depleted? Where will additional funds come from when needed?

The procurement process guarantees contract details including costs in advance of expenditures, in this way all parties are aware of and bound to the agreed upon costs for specific services.

Since grants are one-time funding sources, the best practice is to only add FTEs that can be absorbed into existing budgeted positions once the grant ends, such as teachers or social workers. Any new positions that cannot be absorbed or new programs that BCPS wishes to continue, must be requested as part of the annual budget process.

- b. Has or will all grant funds be actualized before it is spent? Meaning, will we have funding "in hand" or "explicit knowledge" of full funding amount before "promising" them?

In all cases, grant funding approval is required before any expenditures can be made.

Received from Ms. Felicia Stolusky (January 21, 2024)

29. Magnet Programs: Magnet Funding is being cut by \$500,000, which is approximately 20% that amounts to about \$28 per pupil. The impacts of this reduction on students need to be identified and shared with the Board. Are there any added, new expenses in this area?

As indicated to all stakeholders throughout the process, all departments and divisions were analyzed. Magnet programs were not targeted. A decrease of \$500,000 in magnet school per pupil funding is based on a review of the magnet program allocations to schools, the expenditures for magnet programs, and the amount of unspent magnet funds in several schools. Schools will submit budget proposals for approval based on actual expenditures for their programs, less promotional materials and funds will be allocated, accordingly. Magnet staffing allocations were absorbed in the operating budget and are formula based.

30. Classroom Teacher Positions:

- a. Reducing class sizes/academic achievement were cited as top priorities, for the 2025 Budget, by both teachers and parents/guardians in their feedback related to your outreach initiatives. What is the rationale for not filling vacancies at a time when our net enrollment is increasing? Specifically, what schools/positions are being affected by this change and what is the net effect on student to teacher ratio? While some primary grades are having reductions in class sizes, what is the exact net change to class sizes for all grade levels?

The reduction in classroom teacher FTEs is reflective of an examination of each teaching position within a school and identifying that there were situations in which teaching staff did not have teaching responsibilities or had limited responsibilities. By clearly defining roles and instructional responsibilities, staffing has been realigned, ensuring staffing standards.

- b. What is the number of teachers being reassigned as professional development teachers? What is the net effect on student to teacher ratio?

Response: Zero. This is a new allocation and not a previous allocation of resources. There is no connection between the reassignment of professional development teachers and the net effect on student: teacher ratio.

31. Safety Assistants: How will funding for safety assistants be affected by the loss of ESSER funding. Given that ESSER funding covered 100% of Safety Assistant Salaries for the 2023-4 school year, how will this program be affected? Will there be a net change in the number of safety assistants? Are there any other major impacts to consider?

Student Safety Assistants (2-5 per secondary school and 14 for 27 select elementary schools) provide support to school safety and climate activities in schools.

Student Safety Assistants support the climate and safety in schools by providing a variety of functions such as hall and door monitoring, visitor screening, providing tiered interventions, addressing social skills support, and supporting schoolwide behavior plans.

32. The Time to Care ACT: The ‘Time to Care Act of 2022’ will be enforced by FY2025. What will the financial cost of its implementation be and how is that allocated for in the proposed budget?

We are looking into the feasibility of joining a multi-jurisdictional collaborative to minimize the administrative burden, reduce costs, and ensure compliance. Our understanding is there is no impact on the FY2025 Operating Budget. Our premium contributions will begin on January 1, 2026 (FY2026).

33. Impact of High School Graduation Data: On page 109, the percentages of high schoolers listed as either receiving a diploma or dropping out is data that is listed as ‘pending.’ When will this data be updated? How have these statistics impacted budgetary decisions? Are there areas of the budget that specifically allocate funds/services to reduce the drop-out rate in BCPS?

The data is currently unavailable, as the adjusted cohort graduation rates are provided by the Maryland State Department of Education in February 2024.

34. Procurement Spending: The annual expenditure of the use of BCPS Procurement Cards is \$15,000,000. A line-by-line item is needed here to evaluate the usefulness of this spending and to eliminate unnecessary expenditures.

Our process this year, through Zero-Based Budgeting, considered all spending, including procurement cards. Regardless of the method of spending, i.e., contract, purchase order, check request, or procurement card, we reviewed all discretionary budgets and only approved spending that aligns with improving academic performance, climate, and/or operational efficiency.

35. Department Budgets: More information is needed for Board Members to see what expenditures are being kept or eliminated with rationales behind such changes.

Once finalized by the Board, the adopted FY2025 operating budget book will include department-level information, including any affected positions, budget by object class and budget by category.

36. Department Head Positions: It would be helpful for Board Members to receive information about the rationale behind the decision to combine departments, resulting in the elimination of some department head positions. What is the predicted impact of this change on students?

Once finalized by the Board, the adopted FY2025 operating budget book will include department-level information, including any affected positions, budget by object class and budget by category.

37. Central Office Spending: More information is needed for Board Members to see what expenditures are being kept or eliminated with rationales behind such changes. Moreover, specific positions in this area need to be evaluated for their contributions to student learning and welfare. Perhaps, learning about the process/analysis used by Howard County to make a decision to cut 200 Central Office Positions could be useful to BCPS.

Once finalized by the Board, the adopted FY2025 operating budget book will include department-level information, including any affected positions, budget by object class and budget by category.

| Row Labels | Count of Section | Sum of Student Count | Class Size |
