

Mohammed Choudhury
State Superintendent of Schools

November 10, 2022

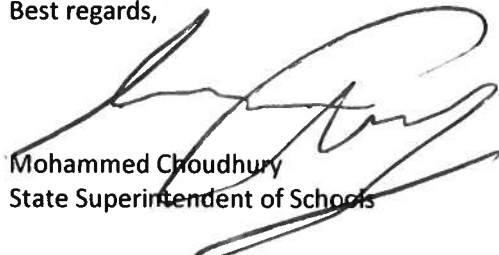

Dr. Darryl L. Williams
Superintendent
Baltimore County Public Schools

Dear Dr. Williams:

Thank you for your submission of the Baltimore County Public Schools Virtual Day Instruction Plan. I am writing to inform you that your plan has been approved for the 2022-2023 school year. Through the approval of your plan which is aligned to the required elements and attestations, you have the ability to utilize up to eight virtual instructional days in a manner described in your approved plan. In addition, I understand that your plan was presented and discussed at your October 11, 2022, and October 25, 2022, Baltimore County Board of Education meetings with an opportunity for parents to publicly comment or submit comments through surveys that were available in English and Spanish from September 9 through September 23, 2022. Baltimore County received 26,952 responses. Please send a word copy of your plan and the link to your plan when it is posted on your website to Mary Gable, Assistant State Superintendent, at mary.gable@maryland.gov.

I look forward to hearing about the benefits of implementing this process with Baltimore County Public Schools.

Best regards,

Mohammed Choudhury
State Superintendent of Schools
